November 7, 2023

The Honorable Members of the Board of Supervisors County of Solano County 675 Texas Street, Suite 6500 Fairfield CA 94533

Honorable Members of the Board:

It is my pleasure to present the quarterly report for the first quarter of FY2023/24.

State of the Treasury

The \$1.8 billion Treasurer's pool is managed in accordance with the tenets of California Government Code §53600.5 to provide for the safety of principal, adequate liquidity for all anticipated cash flow requirements, and a consistent rate of return commensurate with the established risk profile. The \$440.8 million currently held in cash and investments with six months or less left to maturity should provide adequate funding for all anticipated cash needs, while also affording the Treasury an opportunity to invest excess liquidity at higher rates.

The treasury pool is maintained with a duration designed to stabilize yields consistent with the risk profile established by the Treasurer. The treasury pool is also diversified from a credit risk perspective by maintaining a mix of investments that includes 10.2% in cash and cash equivalents, 14.2% in US Treasuries, 63.8% in Government Sponsored Enterprises, 4.4% in US Corporations, and 5.0 in Municipals; with the balance of 2.4% held in a variety of assets including mutual funds, commercial paper, and other holdings allowable under \$53600.5.

Current Market Conditions Impacting the Treasury Pool

Treasury managers monitor information provided by the Federal Reserve; its actions and information impact the interest rates at the short end of the curve where nearly all the treasury pool investments are made. Due to rising inflation in the economy that began many months ago, the Federal Open Market Committee (FOMC) which is charged with maintaining stable prices began a campaign to raise interest rates incrementally in an attempt to reduce growth in the economy and cause inflation to fall.

On September 20, 2023, following several increases to the Federal Funds Rate, the FOMC paused and did not increase the federal funds rate to assess additional information and implications for monetary policy. The funds rate lower bounds is 5.25 percent and the upper bounds rate is 5.50 percent. The FOMC statement released with the announcement indicated economic activity is expanding at a solid pace. The statement also indicates job gains have slowed but remain strong, and unemployment is low. The policy of contraction will continue with the reduction of treasury security holdings, agency securities and mortgage backed securities. The committee reiterated a strong commitment to reducing inflation to its 2 percent objective.

Consumer Price Index (CPI) for all items, released by the U.S. Bureau of Labor Statistics, data for August 2023 was 3.7 percent over the last 12 months, well above the stated FOMC target of 2 percent. This represents an increase of 0.6 percent in August after an increase of 0.2 percent in July. The index for gasoline was the largest contributor to the monthly, all items,

Page 2 of 2

increase. Also contributing was the continued advancement in the shelter index, which rose for the 40th consecutive month. The index for all items less food and energy rose 0.3 percent in August, following a 0.2 percent increase in July.

The FOMC is scheduled to make its next announcement decision to change rates on November 1, 2023.

Expectations going forward

Given the FOMC statement and data provided in the Beige Book Report, employment data and CPI data, treasury managers expect interest rates on the short end of the interest rate curve to continue to increase in the coming quarter.

As investments in the pool mature and are reinvested, the yield on newly invested funds will yield higher rates of return. Higher rates of return mean the interest rate earned and apportioned to treasury pool participants will be higher in the coming quarters.

Credit quality of corporate securities will continue to be monitored as higher interest rates begin to bite into economic growth, and investments will continue to be diversified to mitigate risk.

Respectfully Submitted,

CHARLES LOMELI

STATEMENT OF COMPLIANCE

September 30, 2023

Liquidity:

The Treasury has a cash and cash equivalent position (securities maturing within 6 months) of \$440.8 million dollars as of September 30, 2023. Based on historical trend analysis and projections by the various school districts, it is estimated that this cash position is adequate to meet projected liquidity requirements of the pool participants for the next six months.

Should the treasury experience unusual demands on cash, the liquidity position will be adjusted accordingly.

Investments:

The investment portfolio has been reviewed by the Treasurer-Tax Collector-County Clerk on September 30, 2023 and found to be in compliance with the Investment Policy.

Reporting and Distribution:

In accordance with Government code section 53607, a monthly report is submitted to the Clerk of the Board electronically.

In accordance with the Government Code section 53646 this non-mandated quarterly report is submitted to provide full disclosure to the Board and public.

This report is also made available to the Superintendent of Schools, the business managers of each district, many pool participants and the public at large via the Internet.

Respectfully Submitted,

CHARLES LOMELI
