The Honorable Members of the Board of Supervisors
County of Solano
675 Texas Street, Suite 6500
Fairfield CA 94533

Honorable Members of the Board:

It is my pleasure to present the quarterly report for the third quarter of FY2023/24.

State of the Treasury

The \$2.1 billion Treasurer's pool is managed per the tenets of California Government Code §53600.5 to provide for the safety of the principal, adequate liquidity for all anticipated cash flow requirements, and a consistent rate of return commensurate with the established risk profile. The \$1.1 billion currently held in cash and investments with six months or less left to maturity should provide adequate funding for all anticipated cash needs and allow the Treasury to invest excess liquidity at higher rates.

The treasury pool is maintained with a duration designed to stabilize yields consistent with the risk profile established by the Treasurer. The treasury pool is also diversified from a credit risk perspective by maintaining a mix of investments that currently includes 20% in US Treasuries, 60% in Government Sponsored Enterprises, 5% in US Corporations, and 4% in Municipals; with the balance of 11% held in a variety of assets including LAIF, shares of beneficial interest and other holdings allowable under §53601.

Current Market Conditions Impacting the Treasury Pool

Treasury managers monitor information provided by the Federal Reserve; its actions and information impact the interest rates at the short end of the yield curve where nearly all treasury pool investments are made. Due to rising inflation in the economy that began many months ago, the Federal Open Market Committee (FOMC), which is charged with maintaining full employment and stable prices, began a campaign to raise interest rates incrementally to reduce economic growth and cause inflation to fall.

The FOMC convened on March 19, 2024, and announced on March 20, 2024, that the funds rate would remain at 5.5 percent upper bounds, and 5.25 percent lower bounds. The FOMC statement released with the announcement indicated economic activity has been expanding at a solid pace and job gains have remained strong. The statement also indicated that the unemployment rate has remained low and inflation has eased over the past year but remains elevated. "The Committee does not expect it will be appropriate to reduce the target range until it has gained greater confidence that inflation is moving sustainably toward 2 percent". The statement further indicated that a reduction of the Federal Reserve's holdings of Treasury securities, agency debt, and agency mortgage-backed securities, as described in previously announced plans, will continue.

The FOMC is scheduled to make its next announcement regarding fund rates on May 1, 2024.

Expectations going forward

Given the FOMC statement and data provided in the Beige Book Report, employment data, and CPI data, treasury managers expect interest rates on the short end of the interest rate curve to remain stable in the coming quarter.

As investments in the pool mature and are reinvested, the yield on newly invested funds will be slightly higher. Higher rates of return mean the interest rate earned and apportioned to treasury pool participants will be slightly higher in the coming quarters.

The credit quality of corporate securities will continue to be monitored as higher interest rates continue to bite into economic growth, and investments will continue to be diversified to mitigate risk.

Other Matters

As part of the reorganization underway in the treasury, the Treasurer recently issued a Request for Proposal for advisory services to assist treasury staff in managing the investment portfolio. Services to be evaluated in the proposals include, but are not limited to, evaluation of current practices to ensure they are compliant with industry best practices regarding the investment policy, liquidity management, investment objectives, benchmarking, and credit analysis/management. A further examination will include the advisory services' reporting capabilities, ability to assume portfolio investment management in an emergency at the request of the county for a limited period, and management of the credit portion of the portfolio.

*All figures and calculations are based on market value.

Respectfully Submitted,

CHARLES LOMELI

STATEMENT OF COMPLIANCE

March 31, 2024

Liquidity:

The Treasury has a cash and cash equivalent position (securities maturing within 6 months) of \$1.1 billion as of March 31, 2024. Based on historical trend analysis and projections by the various school districts, it is estimated that this cash position is adequate to meet the projected liquidity requirements of the pool participants for the next six months.

Should the treasury experience unusual demands on cash, the liquidity position will be adjusted accordingly.

Investments:

The investment portfolio was reviewed by the Treasurer-Tax Collector-County Clerk on March 31, 2024, and found to not comply with the Investment Policy. On March 26, 2024, a security not issued within the United States was purchased in error. Once discovered, this bond was sold. The investment portfolio is now in compliance as of the drafting of this document.

Reporting and Distribution:

In accordance with Government Code section 53607, a monthly report is submitted to the Clerk of the Board electronically.

In accordance with the Government Code section 53646, this non-mandated quarterly report is submitted to provide full disclosure to the Board and the public.

This report is also made available to the Superintendent of Schools, the business managers of each district, many pool participants, and the public at large via the Internet.

Respectfully Submitted,
