Mr. I. T. Wallace, Director  
California Department of Food  
and Agriculture

The Honorable Board of Supervisors  
of the County of Solano

and

Mr. David Balmer, County Administrator

It is with pleasure that I submit my first Annual Solano County Crop Report as Agricultural Commissioner, in accordance with Section 2279 of the California Agricultural Code. This report shows the acreage, production and gross value of agricultural products produced in Solano County in 1975.

The gross value of all agricultural products for 1975 was \$99,222,500. This is a decrease of \$10,691,500 from the 1974 record year of \$109,914,000. Production of most agricultural products were equal to or up slightly over 1974, however prices were generally lower. The sharpest decrease in gross value was in sugar beets, which accounts for \$9,421,400 of the \$10,691,500 decrease in gross value for agricultural products, even though the production of sugar beets was up 41,480 ton over 1974.

Tomatoes continue to be the leading agricultural product in gross value. In 1975 Solano County growers produced 473,512 ton of tomatoes on 20,410 acres for a gross value of \$26,327,300.

I must emphasize that this report represents Gross Values of agricultural products and does not reflect any net return to the producer.

I wish to express my sincere appreciation to everyone who has provided the information and records necessary to compile this report.

This report is compiled by my staff under the direction of my Assistant Commissioner, Don Haug, to these people I wish to express my sincere appreciation for an excellent crop report.

Respectfully,

Richard E. Lawley  
Agricultural Commissioner

SOLANO COUNTY FRUIT AND NUT ACREAGE STATISTICS  
1975

| Orchard Crop        | Bearing<br>Acreage | Non-Bearing<br>Acreage | Total |
|---------------------|--------------------|------------------------|-------|
