## Consumer Alert

California Insurance Commissioner Ricardo Lara has issued the following information for people whose vehicles were damaged or flooded by Tropical Storm Hilary.

If your vehicle was damaged by falling debris or flooded, you may have coverage under a comprehensive policy. Unlike a standard homeowners' insurance policy which typically does not cover you in the event of a flood, your auto insurance policy may cover your vehicle if it is damaged in a flood if you have purchased comprehensive coverage.

Comprehensive auto insurance coverage protects your vehicle in the event of flood damage. While only liability coverage is required by law, you should consider comprehensive coverage to protect your vehicle in case of storm damage. You should call your insurance company to report the damages and take pictures and keep records of all clean up and repair costs.

Damage caused from fallen trees are generally covered under all standard homeowner policies. There may be exceptions. Please consult with your agent or your insurance company.

The Department of Insurance can help consumers with insurance coverage or claim questions. Call the consumer hotline at 800-927-4357 or through online chat or email at <https://www.insurance.ca.gov/>

## **BAAQMD Indoor Appliances Implementation Working Group Meeting**

Space and water-heating appliances generate a large portion of nitrogen oxide (NOx) emissions from sources in the Bay Area. NOx is formed during natural gas combustion when ambient nitrogen and oxygen combine at high temperatures. Earlier this year, the Bay Area Air Quality District adopted amendments to rules on use of these appliances. The amendments will substantially reduce NOx emissions from these appliances and therefore secondary particulate matter formation. The implementation of these rule amendments will be a multiyear effort, spanning from 2024 to 2031.

As part of the amendments, the Air District has convened the Implementation Working Group (IWG). The IWG is comprised of over 40 invited stakeholders representing a variety of stakeholder segments. The purpose of the IWG is to provide input to Air District staff's periodic reports to the Board of Directors on the implementation of the Building Appliances Rules and to provide the Air District staff with insights on the technical readiness of the market and equitable transition to compliant appliances, so as to not unduly burden any income class or professional group. As such, the IWG provides a forum for invited members to discuss technical and equity aspects of implementing the Building Appliances Rules.

The second IWG plenary meeting will take place on Wednesday, **August 30 from 1 to 4pm** virtually via Zoom. Members of the public may attend in listen-only mode with the opportunity to provide public comments at the end of the meeting. [Register in advance.](#)

A meeting agenda can be accessed in advance of the meeting on the [Building Appliances web page](#). IWG meetings will be held on a quarterly basis and notifications will be sent out prior to each meeting.

Simultaneous interpretation is available upon request at least 72 hours prior to the public meeting date. For language interpretation, contact Anna Lee at [alee@baaqmd.gov](mailto:alee@baaqmd.gov), or (415) 852-1445.

## Events I attended this week

I attended the Our Bay Trail/Vine Trail Groundbreaking Ceremony **Thursday Aug. 24**. The cool wind was blowing making the outdoor activity pleasant. Shout out to the Vallejo city staff especially public works for their labor getting the grounds ready. Lots of excitement in the air over this project as many, many people have worked years to make this Trail a reality.

I like the fact that this walking trail in Green Valley has a unique bridge. It matches all of the trees in the area giving the atmosphere of being in a forest. - Monica

First elected in 2016, Monica represents District 2 on the Solano County Board of Supervisors. District 2 encompasses the city of Benicia, the portion of Vallejo south of Georgia Street, Mare Island, Cordelia, Green Valley and a portion of Fairfield.
