Hazardous Waste Inspection Log

A check mark in column "B" below indicates that the undersigned employee inspected the hazardous waste area to insure compliance with relevant standards in the following areas:

1. **There are no spills currently in progress.**
2. **Any spills have been cleaned up and the area is absent of standing fluids.**
3. **All hazardous waste containers are closed and have good integrity.**
4. **All containers are labeled with the words "hazardous waste", generator name and address, contents, hazardous properties, physical state and accumulation date.**

The hazardous waste inspection shall be done weekly for container storage areas and daily for aboveground tank areas.
