INFORMATION RELEASE
UPDATE

Juvenile Death Investigation – Vacaville
Solano County Sheriff's Office

October 22, 2009

On October 21, 2009, the Solano County Coroner's Office reported the death of a Vacaville juvenile. Preliminary test results confirmed that the child tested positive for Influenza type A. On today's date, our office received test results from the California Department of Public Health Laboratory indicating that the test samples we submitted in reference to this case tested positive for novel H1N1/Swine Flu.

The Solano County Coroner's Office investigation into this case continues. H1N1 cannot be confirmed as the cause of death at this time.
