

Memo To: Solano County Planning Commission, Solano County Board of Supervisors and Solano County LAFCO
From: Duane Kromm on behalf of the Solano Orderly Growth Committee
September 24, 2015
Re: Woodcreek 66

Honorable Commissioners and Board Members

Attached is a detailed letter from our attorneys Shute, Mihaly and Weinberger that was sent to County Counsel and City of Fairfield's City Attorney on July 22, 2015. This letter explains why Fairfield's voter approved Measure L prohibits the city from providing any form of water treatment or sewage conveyance to projects outside the city's urban growth boundary.

It appears that this letter has not been shared with Commissioners or Board members. If I am incorrect in assessment I apologize for sending you a duplicate copy.

Orderly Growth hopes that both Solano County and the City of Fairfield realize that any attempt to violate Measure L will be strongly opposed by us. Woodcreek 66 as currently proposed is in our opinion a clear violation of Measure L. We hope that Solano County will stop the project as proposed and encourage the project proponents to plan for a project that will not violate Measure L.

Thank you for considering our position on Measure L.

Duane Kromm
