Budget Construction & Legal Requirements

Purpose

This section of the Budget document set forth the Government Code Sections and administrative directives, as issued by the Office of the State Controller, pertaining to the form and content of the Annual County Budget. It describes the format of the Solano County Budget document and includes County ordinances and specific policies adopted relating to the County Budget.

Legal Basis

The Government Code specifies the content of the budget, budget adoption procedures and dates by which actions must be taken. (Government Code 29000-29144)

Forms

The budget document must be on such forms as are prescribed by the Controller and consultation with the Committee on County Accounting Procedures. (Government Code 29005)

Permission to Deviate

A County may add to the information required, or show it in more detail, providing the financial information and the classifications or items required to be included in the budget are clearly and completely set forth. Any change proposed by a county in the arrangement of the information required on the forms shall be subject to review and approval by the Controller.

Funds and Accounts

Fund and account titles to be used by counties in the preparation of the budget are those contained in the publication, *Accounting Standards and Procedures for Counties*, issued by the Controller. Special districts required to be included in the budget document must use fund and account titles

contained in the publication, *Uniform Accounting System of Special Districts*.

Basis of Accounting

The general operating group of funds (governmental fund types) are budgeted and accounted for utilizing the accrual basis of accounting. This group of funds is summarized on Schedule 1 of the budget document.

Internal service and enterprise funds are budgeted and accounted for utilizing the accrual basis of accounting.

The basis of accounting utilized in this budget document is required by directive of the State Controller and Governmental Generally Accepted Accounting Principles (GAAP) and prescribed by pronouncements of the Governmental Accounting Standards Board (GASB).

Legal Duties and Deadlines

State Controller (Government Code 29005)

- To promulgate budget rules, regulations and classification and to prescribe forms.

Supervisors (Government Code 29061, 29063, 29064, 29065, 29066, 29080, 29081, 29088, 29100, 29101)

- To hold hearings on budget estimates prepared by officials.
 - To make revisions, reductions and additions to estimates.
 - To formally approve the tabulations, as revised, as the Proposed Budget.
 - To make the Proposed Budget available to the general public.
-

Budget Construction & Legal Requirements

- To publish notice that budget is available and to announce and conduct public hearings, as prescribed by law.
- To adopt Final Budget by resolution for County and Special Districts.
- To adopt tax rates.
- To levy taxes.

All County Officials (Government Code 29040)

- To submit itemized estimates of available financing, financing requirements, and any other matter required by the Board on or before June 10th of each year.

Auditor or Administrative Officer as Designated by Board (Government Code 29040, 29042, 29045, 29060, 29062, 29065.5)

- To receive budget estimates from officials.
- To prescribe and supply budget work sheets.
- To submit budget estimates when official responsible has not done so.
- To prepare tabulation of estimates.
- To submit tabulation to Board.
- To file alternate procedure for Proposed Budget.

Auditor (Government Code 29043, 29044, 29083, 29103, 29109, 29093, 29124)

- To furnish financial statements or data to responsible officials.
- To attend public hearings on Proposed Budget and furnish any financial statements and data required.

- To revise the Proposed Budget to reflect changes made by the Board.
- To calculate tax rates.
- To forward statement of all County tax rates, assessed valuations and amount of taxes levied and allocated to the State Controller.
- To file copy of Final Budget with the Office of the State Controller.
- To approve all payments in accordance with the Adopted Final Budget.

Budget Goals and Objectives

The County Budget sets forth the foundation for major Board policy actions and provides a fiscal “road map” for the direction of County government to follow, now and in the future. As such, the County Budget represents the single most important document that is prepared, reviewed and approved on an annual basis.

The intent of the Budget document is to:

- Provide a document in a format that is user friendly and readable in order to give the public a clear understanding about County government operations and funding. The County Statistical Data section gives the reader a comprehensive profile of the County.
 - Provide specific goals and objectives, which can be used on an annual basis, to judge the progress of County Departments and operations in fulfilling their departmental goals and objectives as well as the County’s overall mission.
 - Provide the Board and the public with a clear understanding of revenues and expenditures in the areas of Public Safety and Health & Social Services.
-

Budget Construction & Legal Requirements

While many improvements have been incorporated into the process and the presentation of the Budget over the last several years, we have maintained the basic principles, goals and objectives of Solano County as the underlying foundation for the Budget. These include:

- The Budget must be balanced so estimated revenues equal appropriations.
- Wherever possible, the Budget should be balanced with ongoing and known revenue sources equaling ongoing and reasonably expected expenditures.
- To the extent possible, one-time money should not be used for ongoing operations.
- Service levels should be maintained at the highest level, within funding constraints.
- Prudent Contingencies and Reserves should be increased in good years to guard against future uncertainties.
- Discretionary revenues should be maximized to allow the Board options for the funding of beneficial local programs and services.
- Accuracy and accountability in estimating and monitoring both revenues and expenditures throughout the fiscal year.
- The Budget should, wherever possible, anticipate and make provisions for uncertain funding for County operated programs.

In reference to the stated goals and objectives above, there are several policy guidelines that were followed and maintained in developing this Budget:

- Proposition 172 funds have been allocated to maximize public safety benefits.
- Realignment revenues have been allocated to

Health & Social Services.

- Continue to increase General Fund Contingencies and Reserves, whenever possible, to safeguard future uncertainties.

Budget Policies of the Board of Supervisors

In addition to the legally required duties, there are certain actions to implement the budget process, which the Supervisors may take.

- Changing the arrangement of information on budget forms, upon approval of the State Controller. (Government Code 29005)
 - Designation of data, in addition to available financing and financing requirements included in departmental estimates. (Government Code 29006)
 - Selection of method of presenting supporting data for salaries and wages appropriations. (Government Code 29007)
 - Designation of Auditor or Administrative Officer to receive budget estimates. (Government Code 29040, 29042)
 - Designation of Auditor or Administrative Officer to submit estimates in event of nonperformance by responsible official. (Government Code 29045)
 - Designation of Administrative Officer to prepare budget tabulation on prescribed forms. (Government Code 29061)
 - Designation of Administrative Officer to hold hearings and recommend changes in tabulation. (Government Code 29062)
 - Adoption of alternate Proposed Budget Procedures. (Government Code 29065.5)
-

Budget Construction & Legal Requirements

- Authorization of additional appropriation controls and designation of official to administer controls. (Government Code 29090).
- Approval of new positions and fixed assets prior to Final Budget adoption. (Government Code 29124)
- Designation of official to approve transfers and revisions of appropriations within a budget unit. (Government Code 29125)
- Approval of budgetary adjustments. (Government Code 29125, 29126, 29126.1, 29127, 29130)
- Designation of official to whom Auditor shall submit statements showing conditions of budget appropriations and estimated available financing. (Government Code 29131)
- Recommend to the Board of Supervisors an annual County operating budget based on revenue projections, budget targets and proposed goals, objectives, work programs and projects developed by the various departments.
- Recommend to the Board of Supervisors a capital budget based upon long-range plans for acquiring, constructing or improving buildings, roads, and other County facilities.
- Recommend to the Board on the acquisition and disposition of real property, except for County road, easements, and rights-of-way which shall be the responsibility of the Director of Transportation.
- Establish a control system or systems to assure the various County departments and other agencies under the jurisdiction of the Board of Supervisors are operating within their respective budgets.

Adopted Budget Policy

The FY2003/04 Budget Hearings were held Monday, June 30, 2003.

The Board of Supervisors has designated the County Administrator as the official responsible to carry out all County budgetary responsibilities not specifically reserved to the Board of Supervisors, Auditor or State Controller.

Chapter 2. Administration of the Solano County Ordinances provides additional information on established County policies. Sections 2-40 through 2-47 specifically address the duties of the County Administrator. Section 2-45 delineates the County Administrator's role in budgetary matters. These duties include:

- Develop budget instructions and policies, revenue estimates, and departmental budget targets to guide departments in budget preparations.
 - Recommend to the Board regarding requests for unforeseen and unbudgeted expenditures.
 - Approve fund transfers and budget revisions within appropriations.
 - Recommend to the Board fund transfer requests requiring Board action under state law.
 - Establish policies for acquiring additional or replacement of fixed assets.
 - Keep the Board informed of the financial status of the County and of other matters of major significance which affect the County.
-

Budget Construction & Legal Requirements

Budget and Fiscal Policies Adopted for FY 2003/04

Budget Policy

1. General Fund Emphasis: Budgets should be prepared with a goal that the FY2003/04 Net County Cost or General Fund Contribution to programs will not exceed the FY2002/03 level, pending the outcome of actual Year End Fund balance. Wherever possible, reductions in General Fund Contribution or Net County Cost should be sought. On a selective basis, increases in General Fund Contribution or Net County Cost may be proposed, consistent with the Board's priorities and if necessary to maintain existing staffing levels.
2. Use of Tobacco Master Settlement Agreement (MSA) funds: If necessary, the Requested Budget could include the use of MSA dollars to fund existing County health programs, freeing up General Fund dollars for other priorities. Involve the MSA Advisory committee to consider the impacts on the County budget and the MSA process.
3. Contributions to Outside Organizations: The Requested Budget should not include contributions to outside organizations, such as the State courts.
4. Prepare Resource Reduction Scenarios: In addition to the Requested Budget, each department should prepare and submit Resource Reduction Scenarios that reflect 10% and 20% reduction in County Cost or General Fund Contribution to the Department. Each Resource Reduction Scenario should to the extent possible, honor Board priorities, and minimize service level impacts and clearly describe what those service level impacts will be. If necessary, these scenarios will be used to propose reduction or elimination of funding for programs in accordance with the Board's priorities.
5. Maximize the Board's Discretion: Wherever legally possible, revenues are to be treated as discretionary resources, rather than as dedicated to a particular program or service. The goal is to give the Board as much flexibility as possible in allocating resources to local priorities. To the extent allowed by law, transfer funding responsibility for existing programs or activities, to appropriate dedicated funding sources. This will free up scarce discretionary resources to fund Board priorities.
6. Pursuit of New Revenues: Pursue additional revenue sources, to the fullest extent possible for all services, as well as total cost identification (including indirect costs) for fee setting purposes. To the extent possible, any new revenue sources for programs receiving General Fund support should be used to offset the cost of existing staff and programs, rather than funding new staff or programs.
7. Discretionary Programs: Do not propose new discretionary programs unless the programs are fully funded in FY2003/04 and continue to do so in future years.
8. Pursue Operational Efficiencies: Explore reducing expenditures and maximizing revenues through consolidation of functions and streamlining of County operations.
9. County Share: If funding is reduced, there should be no increased County share for programs funded primarily from non-General Fund sources, unless increased County share is mandated or the program is a high priority for the Board of Supervisors and the amounts involved are reasonable in light of the County's fiscal situation.

General Fund Reserve Policy

On February 6, 2001, the Board adopted a policy creating General Fund reserves equal to 5% of the County's total budget, excluding intra fund

Budget Construction & Legal Requirements

transfers. This translates to approximately \$29.9 million based on the FY2003/04 Final Budget. The County was able to bring the General Fund reserve to \$24.5 million, as we finished FY2002/03. This is the largest General Fund reserve the County has ever had, thanks to the prudent efforts of the department heads and the Board's foresight to protect the County's financial stability.

The following will guide how reserves should be used:

1. Use the General Fund reserve to phase into fiscal distress periods gradually, focusing on maintaining PlanSolanoCounty priorities.
2. To the extent possible, use the General Fund reserve as the last resort to balance the County Budget.
3. Keep a minimum of \$10 million in the General Fund reserve at all times. To the extent possible, the spending down of General Fund reserve should not exceed \$4 million a year.

Resource Reduction Strategy

In the event reductions in resources in any fiscal year require actions to balance the Budget, the County will be guided by the following:

A) General Philosophy

1. To the extent possible, across-the-board reductions in expenditures will be avoided. Reductions will be made on a case-by-case basis. The emphasis will be on conserving General Fund discretionary resources to finance high priority programs, as set forth in PlanSolanoCounty (adopted by the Board in August 2001 and re-confirmed in the April 2003 Board Goal-setting workshop), and as may be further defined by the Board. If necessary, funding for lower priority programs

will be reduced or eliminated to ensure that expenditures remain in balance with resources.

2. The County administers a number of costly State programs that are heavily funded by State and Federal dollars. Compared to the State and Federal governments, the County has only limited ability to raise revenues. Recognizing that, in the event of a substantial reduction in resources for these programs, the County's goal, to the extent legally possible, is to avoid back-filling reductions in State and Federal dollars with County discretionary dollars.
3. Maintaining a highly professional service delivery system is of foremost importance to the County. Thus, if it becomes necessary to make significant service delivery reductions, the goal will be to reduce the quantity of a service provided rather than the quality of service.
4. Finally, every effort will be made to continue capital and planning programs geared to meeting the County's long-term needs.

B) Resource Reduction Priorities

Short Term Actions

The following actions will be considered when dealing with the immediate impact of a reduction in resources. The purpose of these actions is to achieve immediate savings and/or better position the organization to deal with the impact of longer-term actions once they are implemented. The actions are listed in priority:

1. A selective hiring freeze will be implemented. Funding sources, Board priorities, the type of positions, the critical nature of the program and the potential for service delivery disruption will be considered in implementing the hiring freeze.
-

Budget Construction & Legal Requirements

2. Implementation of new programs, not fully operational, that are not fully revenue offset, will be halted.
3. Purchase of equipment will be selectively deferred. Funding source and impact on service delivery will be considered in implementing the deferral.

Long Term Actions

The following actions will be considered when dealing with the longer-term impact of a significant reduction in resources. As appropriate, these reductions will be reflected in Proposed Budgets and/or mid-year budget adjustments. The actions are listed in priority order and lower priority actions will be implemented only if higher priority actions are insufficient to deal with the fiscal shortfall:

1. Eliminate, or greatly reduce, General Fund support to outside agencies that are not funded by a dedicated revenue source and are not controlled by the Board. This refers to funding of outside agencies whose programs the County has determined would not be provided directly by the County. An example of this is the discretionary funding the County provides to the State Courts.
 2. A moratorium will be placed on implementing new programs or expanding existing programs if the cost of those programs or expansions is not fully revenue offset and a secure long-term funding source is not identified.
 3. General Fund discretionary contributions to certain programs that are primarily the State's responsibility will be capped at current levels, to the extent legally possible. Except as required by law, the County will not use General Fund dollars to backfill reductions in State or Federal funding for these programs.
 4. Moderate service level reductions will be proposed on a case-by-case basis. These service level reductions will focus first on reducing General Fund support for those programs that have not been identified as a high priority by the Board in PlanSolanoCounty, and re-affirmed in the Board's Goal setting workshop in April 2003.
 5. Discretionary resources that have been earmarked by the Board for certain purposes will be proposed for re-allocation to fund ongoing programs that are a priority for the Board.
 6. Major program reductions will be proposed in general accordance with PlanSolanoCounty and the General Philosophy described above. These reductions will fall into two general categories:
 - Program reductions that will be proposed in response to a reduction in County discretionary revenue. In this case, reductions will be made first in those programs that are not related to the Board's adopted Priorities. Core Services may also be affected. If it is necessary to make reductions in programs related to the Board's Priorities, programs will be considered in the following order:
 - Invest in the Future
 - Land Use
 - Agriculture
 - Public Protection Programs for Adults
 - Health Programs for Adults
 - Health and Protection Programs for Children
 - Program reductions that will be made in response to significant reductions in State funding for programs that are primarily the State's responsibility. In this case, the County will consider returning responsibility to the State for operating those programs, to the extent permitted by law. Where returning responsibility to the State is not legally possible, County
-

Budget Construction & Legal Requirements

General Fund support for these programs will be reduced to the minimum level possible, consistent with State mandate requirements.

In addition, in February 2003, the Board approved the following actions in preparation for further reductions in FY2002/03 and to help build as large a General Fund balance as possible:

- The voluntary selective hiring freeze was hardened. CAO approval was required to fill positions and approval granted only if the positions are fully revenue offset or are critical to the program operations. In addition, this requirement extended to extra help positions.
- Departments were directed to immediately halt the implementation of all new programs that were not already fully implemented.
- Departments were required to obtain CAO approval for the purchase of all equipment valued over \$500. Approval was granted only if the cost of the equipment is fully revenue offset or is critical to program operations.
- Departments were directed to take whatever steps are necessary to end the fiscal year with no increase in County Contribution. Specifically, the County Administrator was not to recommend an increase in County Contribution to backfill for a reduction in State revenues.
- Departments were directed to control and reduce travel costs. Only travel critical to program operations was permitted.

Summary of Designated Responsibilities for Actions

As previously discussed, State laws and County ordinances prescribe the manner and form in which the Budget is presented. Additional responsibilities and the delegation for preparation, review and approval are also established by statute and ordinance and by policies coordinated through the Board of Supervisors, the County Administrator and the Auditor-Controller's Office.

Listed below are additional actions, which require a **four-fifths** vote of the Board of Supervisors:

- Appropriation increases within a fund.
- Appropriations from contingencies.
- Appropriations of unanticipated revenues.
- Reduction of appropriations and revenues for unrealized funding.
- Transfer between funds.
- Transfers from designated reserves.
- Transfers from equipment replacement reserves.
- Transfers from general reserves (only during budget process).

Listed below are additional actions requiring a **majority vote** of the Board of Supervisors:

- Approval of a fixed asset over \$50,000 that does not increase the overall department budget.
 - Approval of contracts and amendments when the aggregate amount if the contract and amendment(s) is in excess of \$50,000 per fiscal year.
-

Budget Construction & Legal Requirements

- Approval of petty cash accounts over \$1,000.
- Transfers between departments within a fund.
- Transfers between Capital Projects.

Listed below are the actions delegated to the County Administrator:

- Approval of a fixed asset up to \$50,000 that does not increase the overall department budget.
- Approval of a fixed asset in lieu of one already budgeted.
- Transfers between divisions, bureaus and sections within a department provided the total appropriation of the budget is not changed.
- Transfers less than \$50,000 from salaries and benefits (Accounts 1110-1999) within a department.
- Control transfers to and from the following accounts: Salary/Wages-Extra Help (1121); Compensation Insurance (1240); Insurance-Risk Management (2050); Liability Insurance (2051); Central Data Processing (2266); IFAS costs (2269); Energy Retrofit costs (2362); and Countywide Admin Overhead (3710).
- Approval of contracts and amendments when the aggregate amount of the contract and amendment(s) is less than \$50,000 per fiscal year.
- Approval of appropriation transfers to increase the Fleet budget when Departments have acquired approval for new vehicles.

In addition, the County Administrator recommends the following:

- Affirm the following counties as the seven

When you look at the County population over a 10-year period beginning in 1993, the steady, constant growth is apparent. The County population is increasing an average of 1.3% annually with the most

notable changes occurring in the cities of Rio Vista with a 57% increase, and Dixon with a 38% increase over the past 10 years.

Benchmark Counties

When reviewing the County of Solano’s economic health, our County government’s financial capacity, and our delivery of services to residents of unincorporated areas, we inevitably compare ourselves from the current year to past years.

Additionally, the question of how we compare with other counties is often asked. This leads to the question: which counties should we use for comparison purposes?

County Statistical Profile

We have selected a group of ten counties that are used for comparisons in the following five tables. The County of Solano has the following characteristics in common with each of these counties:

- They are the ten counties closest to Solano in population – four with higher population and six with lower population.
- A total population of more than 250,000 but less than 650,000.

- All include both suburban and rural environments.
- None contains a large metropolitan city.
- Seven are coastal or Bay Area counties.

Most have the same urban growth vs. rural preservation issues facing Solano County.

County Statistical Profile

As is shown in the following tables Population Density and Population Residing in the Unincorporated Area, while Solano County has a high per square mile population density, its residents are concentrated in cities. According to the California Department of Finance's January 2002 estimates of city and county populations, on a State-wide basis, 82% of California residents live in cities and 18% in unincorporated areas. In contrast, in Solano County, 95% of residents live within the County's seven cities. Over 62% of County land area is comprised of farmland and open space. This phenomenon was not an accident. In the early 1980's the residents of the County passed the Urban Growth Initiative, Measure A, which limits most urban growth to incorporated

cities. This unique mixture of a sizeable urban population and a large rural/agricultural base creates many problems and challenges for County government. These include: balancing continuing urban growth pressures with the need to preserve agriculture and open space; problems in the transition zones between urbanized areas and agricultural areas (land use, pesticide use, dust, odors and vermin); coordination of infrastructure transitions from the urban areas to the rural areas (reliever routes, upgraded feeder streets/roads, flood control); and the largely urban driven need for health, public assistance and law and justice services, with little County government control or influence in promoting initiatives in the urban environment that would create long-term improvements.

Population and Demographic Profile

The following charts “Demographics – Population by Age Group” and “Demographics – Population by Percentages in Various Age Groups” show that the 45-59 age group of Solano County residents is the fastest growing population segment with a 55% increase in the 10 years from the 1990 Census to the 2000 Census. This segment also increased its County-wide percentage share by 5% in the same time period, from 14% of the County population to 19%. Next in growth is the 60+ segment with a 38% increase from the 1990 Census to the 2000 Census and a shift from 11% to 12% of the County population.

While the under 24 age groups are showing modest increases, their share of the County’s population has dropped approximately (1%).

The primary wage earning segment, the 25-44 age group, decreased (2,235) which is a (7%) drop in their percentage share of the population over the same time period.

The age demographics in Solano County are very similar to those of the State of California and the trend of these demographic indicators are consistent with the “graying” of America identified by demographers as the maturing “Baby Boom” generation. Over 31% of Solano County’s population is over 45 years of age which is consistent with the demographics of the State of California which also shows 31% of the population as 45+ years of age.

Population Living in Poverty

The California Department of Commerce and Bureau of Census 1999 poverty level figures show 9.5% of the County population living at or below poverty

level. While this figure is not acceptable, it should be noted that only three of the Benchmark counties have lower rates and the County's rate is a significant improvement over the 13.7% State rate for population living at or below poverty level.

Population by Ethnicity

The Department of Finance demographic information comparing the 1990 and 2000 Census data indicate that the percentages of ethnic minorities have increased in all categories as well as on an overall basis. The White segment of the population has decreased (5.3%) over the past 10 years. This represents a decline of (11.2%) from 61.1% in 1990 to 49.9% of the 2000 overall percentage of population. The most significant increase occurred in the Hispanic category with a 53% increase over the 1990 population which is a 4.2% increase in the overall percentage of the 2000 population.

The Asian category followed closely with a 52% increase over their respective 1990 population data which is a 3.8% increase in the overall percentage of the 2000 population. The Black category posted a 37% increase over the 1990 population or a 2.4% increase in the overall percentage of the 2000 population. The Native American population segment increased 140% from 2,474 to 5,951 over the same ten year period. In 1990 Native Americans were .7% of the population and in 2000 they are 1.5% of the population in California.

Employment and Economic Growth

Solano County has experienced steady employment growth along with its 13% increase in population in the last decade. A profile of the commute patterns based on the 2000 Census and completed by the Employment Development Department in March 2003 shows that while the majority of the County workforce, 57% or 99,231 County residents, work within the County, the remaining 43% or 75,340

County residents commute to surrounding counties to work. Contra Costa leads with 29% of the County commuters, followed by Alameda with 17%, San Francisco with 14%, Napa with 11%, Sacramento and Marin with 6%, Yolo with 5%, San Mateo with 4%, Sonoma with 3%, and Santa Clara with 2%. The remaining 4% of the workers cite work in more distant counties or indicate their employment as “All Over”.

Source: California Employment Development Department

The figures from the State of California’s Employment Development Department (EDD) and the Association of Bay Area Governments (ABAG) indicate a workforce of approximately 210,700 in Solano County, or 51% of the population. This is an increase of 4% over EDD’s 2001 figures and can be

attributed to population and industry growth in California coupled with a moderate unemployment rate (5.5% for Solano County in 2002) in Bay Area counties. The chart “Demographics – Comparison of Unemployment Rates for 2002” shows the County’s unemployment rate to the comparison counties and

County Statistical Profile

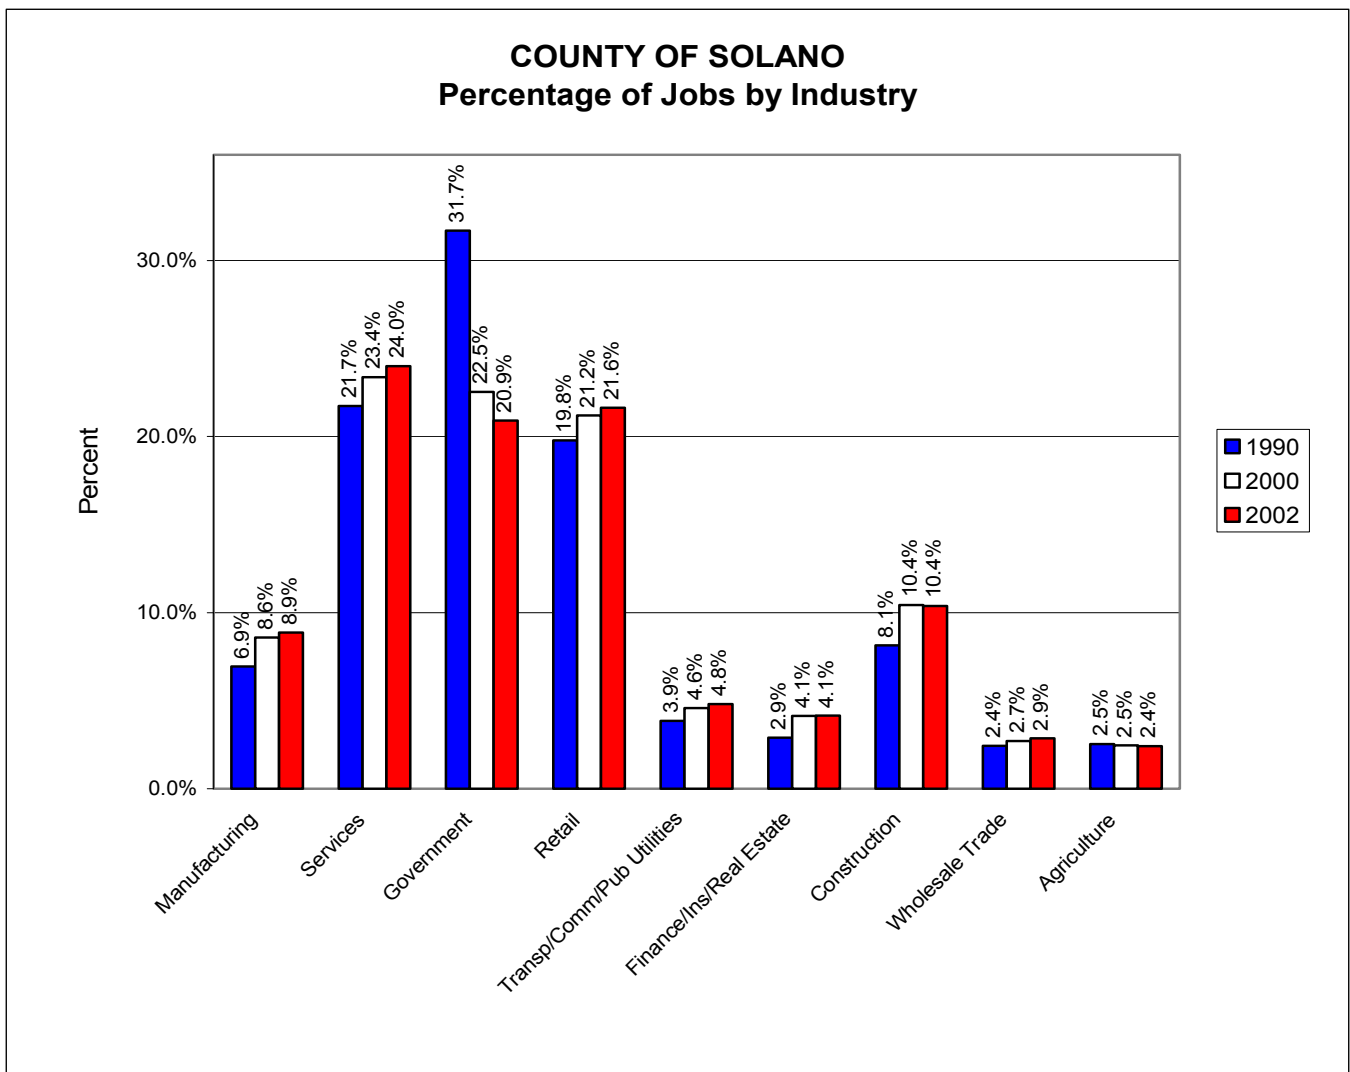

the State of California. The Unemployment Rate for the County increased to 6% as of April 2003.

The graph below represents the distribution of the 125,305 jobs projected in various industries in Solano County in 2002. Of the 125,305 jobs:

- 30,075 or 24% are in Services,
- 27,100 or 21.6% are in Retail,
- 26,200 or 20.9% are in Government,
- 13,000 or 10.4% are in Construction,
- 11,100 or 8.9% are in Manufacturing,
- 6,020 or 4.8% are in Transportation,

- 5,200 or 4.1%, are in Finance/Real Estate,
- 3,580 or 2.9% are in Wholesale Trade, and
- 3,030 or 2.4% are in Agriculture.

If the County workforce were able to fill all the available jobs, we would still need 85,395 additional jobs to allow all of our residents to live and work in Solano County. In reality, it's unlikely that there would be enough jobs in appropriate industries for the existing 125,305 jobs in the workforce of 210,700.

County Statistical Profile

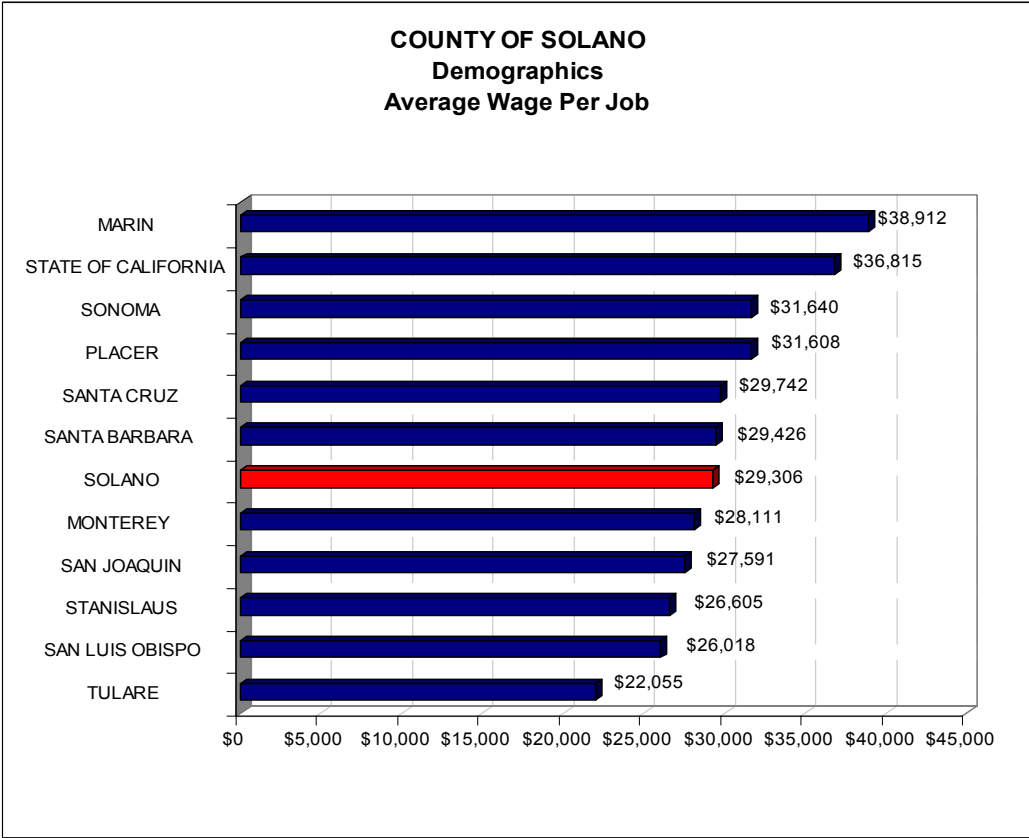

The high number of County residents who currently work out of the County, approximately 43% of the workforce, indicates that in most industries the number of employment opportunities lag behind the number of working County residents who have skills in each specific industry. The job growth in Solano County has not increased significantly in the 10 year period from 1990 to 2000. ABAG projections through 2005 show Solano County growth rates at less than 2% percent per year. At this pace, very few new residents will be able to find jobs in the County in the years to come.

The fastest growing County industries over the ten year period from 1990 to 2000 are:

- Finance/Insurance/Real Estate sector with 1,500 new jobs, or a 42% gain from the 1990 level;
- Construction with 2,790 new jobs, or a 28% gain from their 1990 level;

- Manufacturing with 2,010 new jobs, or a 24% gain from their 1990 level;
- Transportation, Communications and Utilities with 880 new jobs, or an 18% gain from their 1990 level;
- Wholesale Trade with 340 new jobs, or an 11% gain from their 1990 level;
- Services with 1,930 new jobs, or a 7% gain from their 1990 level; and
- Retail with 1,680 new jobs, or a 7% gain from their 1990 level.

The 11,130 gain in jobs in these industries was somewhat negated by the loss of (11,400) government jobs due to the closure of Mare Island Naval Shipyard in 1996. Despite the somewhat stagnant job growth, Solano County's average wage per job of \$29,306 falls in the median range of our comparison counties as demonstrated by the following chart.

Gross Agricultural Crop Value

Sales of agricultural products continue to sustain the County's economy. With a 2002 estimated value of \$199,485,500, Solano County agriculture is diversified with approximately 70 different commodities including fruits, nuts, vegetables, grains, seed, nursery stock and livestock.

Statewide data from all counties' 2001 commodity reports ranked Solano County 31st out of 58 counties in California in gross value of agricultural production and placed Solano County in the top five California

counties for the production of sheep and lambs (18.1% of the State's production), and Sudan grass hay (3.4% of the State's production).

Agriculture generates 12,500 agriculture and agricultural related jobs in the County, including those directly involved with production on the farm as well as numerous jobs in support industries such as processing, transportation, services and supplies.

County Assessed Values and Growth

This Table illustrates the 20 year growth in assessed values in Solano County. Property Taxes are a major source of local governmental revenues and are determined by assessed values.

The 2002 Assessment Roll of \$27,006,889,761 increased 9% over the prior year's roll value and represents property ownership values in Solano County as of January 1, 2002. The property tax rate throughout the entire State of California is 1% of assessed value.
