- **Historic Winters Bridge Replacement Project:** The Department of Resource Management, Public Works Division was awarded the 2016 Project Delivery of the Year Award by the Solano Transportation Authority (STA) for the completion of the Historic Winters Bridge Replacement Project. The new bridge spans 453 feet, incorporates the historic charm of the original 1907 bridge, welcomes vehicle, bicycle and foot traffic, all while meeting today's safety standards.
- **Solano County State / County Fair Exhibit:** The 2016 exhibit - entitled "Solano County Delivers," promotes a positive image of the County's rich agricultural history, industry, entertainment, recreation and tourism destinations to hundreds of thousands of visitors to the California State and Solano County Fairs. The exhibit won 5 awards, including Gold, Division One Award for Craftsmanship, Best of Show and "People's Choice" and "Most Fun" awards - adding to the long list of awards the County exhibit has amassed over the past 15 years.
- **Lake Berryessa Glory Hole Spillway:** In February, 2017, for the first time in nearly a decade, water from Lake Berryessa flowed into a unique vertical spillway called the Glory Hole. Located at the Monticello Dam, the spillway is 72-feet wide and more than 200 feet deep. When the lake fills up, excess water pours down the pipe out the base of the dam into the Putah Creek.

The Honorable Board of Supervisors
County of Solano
675 Texas Street
Fairfield, CA 94533

Members of the Board of Supervisors,

The Adopted Budget of Solano County for the fiscal year July 1, 2017 through June 30, 2018 is presented in this document. This budget was adopted by the Board following public hearings on June 20, 2017.

Schedule 1 includes a summary of the Adopted Budget for all fund types. This entity-wide perspective has a total financing requirement of \$1.106 billion. This total includes appropriations for expenditures (including contingencies), transfers between funds, intra-fund transactions, and increases and decreases in reserves and designations. This should not be construed to represent the total outflow of economic resources to be spent for services, which would be a lesser amount of approximately \$915 million. The difference of \$191 million represents the transfers between funds.

The Adopted Budget sets forth the operating (how to spend) and financial (how to finance) plan for the provision of services to the citizens of the County by all governmental and proprietary funds of the County, dependent special districts and other agencies whose affairs and finances are under the supervision and control of the Board of Supervisors.

The Adopted Budget was compiled in accordance with the County Budget Act (Government Codes §29000 et seq.) and presented in a format prescribed by the State Controller. This document sets forth appropriations as adopted by the Board for each departmental budget unit and fund for the fiscal year ending June 30, 2018.

The preparation of this document is the result of a concentrated, dedicated and coordinated effort by the County. I would like to acknowledge the efforts of departmental budget preparers, department heads, the County Administrator's staff and the Auditor-Controller's Financial Reporting Division. I would also like to thank the Board of Supervisors for their leadership and support.

Respectfully,

Simona Padilla-Scholtens, CPA

County of Solano

Budget Construction & Legal Requirements

PURPOSE

This segment of the budget document sets forth the Government Code Sections and administrative directives, as issued by the Office of the State Controller, pertaining to the form and content of the Annual County Budget. It describes the format of the Solano County Budget document and includes County ordinances and specific policies adopted relating to the County Budget.

LEGAL BASIS

The Government Code specifies the content of the budget, budget adoption procedures and dates by which actions must be taken. (Government Code §29000-29144)

FORMS

The budget document must be on forms prescribed by the State Controller in consultation with the Committee on County Accounting Procedures. (Government Code §29005)

PERMISSION TO DEVIATE

A county may add to the information required, or show it in more detail, providing the financial information and the classifications or items required to be included in the budget are clearly and completely set forth. Any change proposed by a county in the arrangement of the information required on the forms shall be subject to review and approval by the State Controller.

FUNDS AND ACCOUNTS

Fund and account titles to be used by counties in the preparation of the budget are those contained in the publication, Accounting Standards and Procedures for Counties, issued by the State Controller. Special districts required to be included in the budget document must use fund and account titles contained in the publication, Uniform Accounting System of Special Districts, issued by the State Controller.

Fund Types

- General Fund - The chief operating fund of a government. The general fund is used to account for all financial resources except those required to be accounted for in another fund.
- Special Revenue Funds – These funds are used to account for and report the proceeds of specific revenue sources restricted or committed to expenditure for specified purposes other than debt service or capital projects.
- Capital Projects Funds - These funds are used to account for and report financial resources restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.
- Debt Service Funds - These funds are used to account for and report the financial resources restricted, committed, or assigned to expenditure for principal and interest and related administrative charges.
- Enterprise Funds - These funds are used to account for operations financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. (i.e., Airport)
- Internal Service Funds - These funds are used to account for the financing of goods or services provided by one department or agency to another department or agency of a government on a cost-reimbursement basis. (i.e., Fleet, Data Processing, Risk Management)

BASIS OF ACCOUNTING/BUDGETING

The general operating group of funds (governmental fund types) are budgeted and accounted for using the modified accrual basis of accounting. Governmental fund types include General Fund, Special Revenue Funds, Capital Projects Funds and Debt Service Funds. This group of funds is summarized on Schedule 2 of the budget document.

Internal service and enterprise funds are budgeted and accounted for using the full accrual basis of accounting.

The basis of accounting used in this budget document is required by directive of the State Controller and Governmental Generally Accepted Accounting Principles (GAAP) and prescribed by pronouncements of the Governmental Accounting Standards Board (GASB).

COUNTY STRATEGIC PLAN IMPLEMENTATION

The FY2017/18 Recommended Budget supports several of the 2007 County Strategic Plan, Goals and Initiatives. A key priority is financially supporting the Goals, Strategic Objectives and departmental activities consistent with the Plan.

The following is a description of each of the Strategic Plan's Goals:

Goal: Improve the health and well-being of those who live and work here

County of Solano

Budget Construction & Legal Requirements

The County will encourage healthy, active lifestyles by promoting change toward wellness through healthy programs, partnering with schools, hospitals and cities, early intervention with children and families and by encouraging environmentally friendly building and business activities. As a large employer, the County will continue to model the importance of health and wellness throughout its workforce.

Goal: Ensure responsible and sustainable land use

The County, working with the cities, education, workforce training and business leaders, non-profit providers and interested citizens, helps create a high quality of life in Solano County.

The County General Plan was updated and approved by the voters in 2008. The implementation of the various components of the General Plan is still ongoing.

Goal: Maintain a safe community

The County and its partners will offer services, programs and projects that move from incarceration to an integrated approach aimed at eliminating recidivism and reducing the growing need for jail beds. Programs on gang prevention, methamphetamine prevention, juvenile recidivism and positive parenting are parts of the integrated systems approach. Emergency preparedness will continue to play a key role in maintaining a safe community.

Goal: Invest in and for the future

Focused both internally and externally, work efforts involve customer service training and continuous quality improvement, survey and focus groups, succession planning, employee training and development, technology investment and financing of capital projects and renewal efforts.

BUDGET GOALS AND OBJECTIVES

The County Budget sets forth the foundation for major Board policy actions and provides a fiscal “road map” for the direction of County government to follow, now and in the future. As such, the County Budget represents the single most important document that is prepared, reviewed and approved on an annual basis. It is the document that reflects the County’s fiscal commitment to the Strategic Plan, its goals and objectives.

The intent of the Budget document is to:

- Provide a document in a format that is user friendly and readable in order to give the public a clear understanding about County government operations and funding. The County Statistical Profile gives the reader a comprehensive profile of the county.
- Identify the strategic goals and objectives upon which budget allocations are made and to measure the progress of County Departments and operations in fulfilling their departmental goals and objectives as well as the County’s overall mission.
- Provide the Board and the public with a clear understanding of revenues and appropriations in the areas of strategic importance to the County, such as Public Safety and Health and Social Services.

While many improvements have been incorporated into the process and the presentation of the Budget over the last several years, the basic principles, goals and objectives of the Board of Supervisors for Solano County have been maintained as the underlying foundation for the Budget. These include:

- The Budget must be balanced with appropriations equaling the combined total of estimated revenues, fund balance and/or reserves.
- Wherever possible, the Budget should be balanced with identified ongoing revenue sources equaling ongoing and reasonably expected appropriations.
- To the extent possible, one-time money should not be used to fund ongoing operations.
- Service levels should be maintained at the highest level possible, within funding constraints.
- Contingencies and Reserves should be increased in good years to guard against future uncertainties.
- Discretionary revenues should be maximized to allow the Board options for the funding of beneficial local programs and services.

County of Solano

Budget Construction & Legal Requirements

- Every effort should be made to ensure accuracy and accountability in estimating and monitoring both revenues and expenditures throughout the fiscal year.
- The Budget should, wherever possible, anticipate and make provisions for uncertain funding for County-operated programs.

In reference to the stated goals and objectives above, several policy guidelines were followed and maintained in developing this Budget:

- Revenues from Property Tax Administration Fees are recognized in the budgets of the departments (Auditor-Controller, the Clerk of the Board, the Assessor, and the Tax Collector) actually incurring the expenditures.
- Proposition 172 funds have been allocated to maximize public safety services to the public.
- 1991 Realignment revenues have been allocated to Health and Social Services.
- 2011 Realignment revenues have been allocated to certain corrections and human services programs, in accordance with Chapter 40, Statutes of 2011 (AB 118, Committee on Budget) and Chapter 35, Statutes of 2011 (SB 89, Committee on Budget and Fiscal Review) and several 2011 trailer bills.
- General Fund Contingencies and Reserves are increased, whenever possible, to safeguard against future uncertainties and are drawn down as directed and/or authorized by the Board when necessary. Consideration will be given during Budget Hearings to increase Committed General Fund Balances, such as the General Fund Balances for Accrued Leave Payoff, Pension 115 Trust/CalPERS reserve, and for Deferred Maintenance/Capital Renewal, from available year-end Fund Balance whenever the Balance is in excess of the incoming fiscal year's financing needs.

BUDGET POLICIES OF THE BOARD OF SUPERVISORS

In addition to the legally required duties, there are certain actions to implement the budget process which the Board may take, including:

- Changing the arrangement of information on budget forms, upon approval of the State Controller. (Government Code §29005)
- Inclusion of other data, in addition to presenting the minimum information on available financing and financing requirements as submitted by the departments in their estimates. (Government Code §29006)
- Selection of the method of presenting supporting data for salaries and allocated positions. (Government Code §29007)
- Designation of Auditor or Administrative Officer to receive budget requests. (Government Code §29040, 29042)
- Designation of Auditor or Administrative Officer to submit budget requests in event of non-performance by responsible official. (Government Code §29045)
- Designation of Administrative Officer to prepare recommended budget on prescribed forms. (Government Code §29061, 29062)
- Approval of new positions and capital assets prior to Budget adoption. (Government Code §29124)
- Designation of official to approve transfers and revisions of appropriations within a budget unit. (Government Code §29125)
- Approval of budgetary adjustments. (Government Code §29125, 29126, 29126.1, 29127, 29130)
- Designation of an official to whom Auditor shall submit statements showing conditions of budget appropriations and estimated available financing. (Government Code §29126.2)

ADOPTED BUDGET POLICY

The FY2017/18 Budget Hearings were held on Tuesday, June 20, 2017.

The Board of Supervisors (Board) has designated the County Administrator as the official responsible to carry out all County budgetary responsibilities not specifically reserved to the Board, Auditor or State Controller.

County of Solano

Budget Construction & Legal Requirements

Chapter 2 of the Solano County Ordinance provides additional information on established County policies. Sections 2-40 through 2-47 specifically address the duties of the County Administrator. Section 2-45 delineates the County Administrator's role in budgetary matters. These duties include:

- Develop budget instructions and policies, revenue estimates and departmental budget targets to guide departments in budget preparations.
- Recommend to the Board an annual County operating budget based on revenue projections, budget targets and proposed work programs and projects developed by the various departments.
- Recommend to the Board a capital budget based upon long-range plans for acquiring, constructing or improving buildings, roads and other County facilities.
- Recommend to the Board the acquisition and disposition of real property, except for County roads, easements and rights-of-way, which shall be the responsibility of the Director of Resource Management.
- Establish a control system or systems to ensure the various County departments and other agencies under the jurisdiction of the Board are operating within their respective budgets.
- Recommend requests to the Board for unforeseen and unbudgeted expenditures.
- Approve fund transfers and budget revisions within appropriations.
- Recommend to the Board fund transfer requests requiring Board action under State law.
- Establish policies for acquiring additional or replacement capital assets.
- Keep the Board informed of the financial status of the County and of other matters of major significance to the County.

BUDGET AND FISCAL POLICIES FOR FY2017/18

Budget Policy

1. General Fund Emphasis: Pending the outcome of actual Year End Fund Balance, departments' budgets should be prepared with a goal that the FY2017/18 Net County Cost or General Fund (GF) Contribution to programs will not exceed their FY2016/17 Midyear projection and have no new programs or positions unless revenue-offset.
2. Labor Costs: The County has expiring MOU's with all labor units during Budget FY2017/18. During the year, the County will be negotiating with the labor units with the goal of reaching successor MOU's with all labor units. The County anticipates continued increases in PERS employer rate effective FY2017/18, with significant increases in the future. In this regard, Departments should continue to pursue lowering labor costs where possible, developing efficiencies in the delivery of services, searching for opportunities to automate, streamline services where feasible, share back office operations, and eliminating vacant non- "Mission Critical" positions. A "Mission Critical" position is defined as "a position that provides essential life, safety and/or public health services to the community, or required to be filled by the County to avoid liability and to limit impairment or disruption to the delivery of mandated services."
3. Contributions to Outside Organizations: The budget should not include contributions to outside organizations not controlled by the Board, such as the State Courts, unless the organization is carrying out a priority of the Board based on the community's needs.
4. Maximize the Board's Discretion: Wherever legally possible, revenues are to be treated as discretionary resources, rather than as dedicated to a particular program or service. The goal is to give the Board as much flexibility as possible in allocating resources to local priorities, including the Goals and Objectives outlined in the County Strategic Plan. To the extent allowed by law, existing programs or activities should be funded with dedicated funding sources. This will free up scarce discretionary resources to fund Board priorities.
5. Pursuit of New Revenues: Pursue additional revenue sources to the fullest extent possible for all services; and, for fee-setting purposes, identify total cost (including indirect costs) to enable full recovery of all costs associated with the service provided when allowed by law and economic/market considerations.
6. Discretionary Programs: Do not recommend new discretionary programs unless the programs are stated Board priorities, are fully funded by non-General Fund sources in FY2017/18, and will continue to be in future years. Where the County has

County of Solano

Budget Construction & Legal Requirements

discretion, reduce the level of services or eliminate programs. Seek legislative relief or reform for programs when feasible to facilitate service outcomes over prescribed processes and procedures.

7. Pursue Operational Efficiencies: Explore reducing expenditures and maximizing revenues through automation and moving toward self-help service delivery where feasible, consolidation of functions and streamlining of County operations.
8. County Share: If funding is reduced, there should be no increased County share for programs funded primarily from non-General Fund sources, unless increased County share is mandated or the program is a high priority for the Board of Supervisors, and the amounts are feasible in light of the County's fiscal situation.

Fund Balance Policy

On February 13, 2007, the Board adopted a policy on the General Fund Reserve. On June 14, 2011, the Board approved changes to the General Fund Reserve Policy to conform to Governmental Accounting Standards Board (GASB) Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. While the changes primarily affect reporting and not budgeting, changes in terminology are notable.

The General Fund Reserve and Other Designations Policy was updated and renamed Fund Balance Policy. The classifications for governmental funds of designations, reserves and unreserved/undesignated were replaced by the five categories of non-spendable, restricted, committed, assigned and unassigned.

Examples of these five categories of fund balance are:

- a. Non-spendable: Long-term loans
- b. Restricted: Public Facilities Fees
- c. Committed: General Fund Balance for Accrued Leave Payoff
- d. Assigned: General Fund contribution to other funds
- e. Unassigned: Residual net Fund Balance

Key provisions of the Board's updated Fund Balance Policy include:

The General Fund General Reserve will be maintained at a level equal to 10% of the County's total budget excluding inter-fund transfers, with a minimum balance of \$20 million at all times. This level will be maintained to provide the County with sufficient working capital and a comfortable margin to support one-time costs for the following purposes:

- When the County faces economic recession/ depression and the County must take budget action.
- When the County is impacted by a natural disaster or any other emergency.
- When the County experiences unexpected declines in revenues and/or when unpredicted large one-time expenditures arise.

In circumstances where the General Fund General Reserve has fallen below the established level, the County shall replenish the deficiency within five fiscal years or as soon as economic conditions allow from the following revenue sources: year-end surpluses, non-recurring revenues, or if legally permissible and with a defensible rationale, from excess resources in other funds.

Subject to the Board of Supervisors' restrictions, the following will guide how the General Fund General Reserve should be used:

1. Use the General Fund General Reserve to phase into fiscal distress periods gradually, focusing on maintaining the Board's priorities.
2. To the extent possible, use the General Fund General Reserve as the last resort to balance the County Budget.
3. To the extent possible, the spending down of the General Fund General Reserve should not exceed \$6 million a year (Board of Supervisors' policy direction on February 13, 2007).
4. The General Fund General Reserve should not be used to support recurring operating expenditures.

5. The General Fund General Reserve is subject to restrictions imposed by Government Code §29086, which limits the Board's access to the General Reserve during the annual budget process and requires 4/5 vote by the Board.

General Fund Balance for Accrued Leave Payoff

During Fiscal Year 2005/06 Budget Hearings, the Board established a **Reserve for Accrued Leave Payoffs**. In accordance with GASB 54, this Reserve has been renamed as General Fund Balance for Accrued Leave Payoff. The purpose of this fund balance is to minimize the fiscal impact of employee retirements on County Departments' budgets. These funds are to be used for large employee payoffs upon retirement or employment separation from the County when the respective department has insufficient appropriations during the fiscal year to fund these payoffs. The following criteria and procedures were approved by the Board for managing the General Fund Balance for Accrued Leave Payoff:

1. Minimum General Fund Balance for Accrued Leave Payoff. On an annual basis, the Auditor-Controller shall calculate the projected leave payout requirements for the subsequent five years, net of Federal and State reimbursements, and provide the information to the County Administrator's Office for inclusion in the following year's Recommended Budget. The Board's policy is to maintain General Fund Balance for Accrued Leave Payoff equal to 40% of the five-year projected leave payout requirements net of State and federal reimbursements, with a minimum of \$2 million balance maintained at all times.
2. Replenishing General Fund Balance for Accrued Leave Payoff. In circumstances where the General Fund Balance for Accrued Leave Payoff has fallen below the established requirement, the County shall replenish the deficiency within three fiscal years or as soon as economic conditions allow from the following revenue sources: year-end surpluses, non-recurring revenues, or if legally permissible and with a defensible rationale, from excess resources in other funds.
3. Anticipated Accrued Leave Payoffs. During the budget process, a General Fund Department or a Department that receives a General Fund contribution should determine the amount needed to cover anticipated accrued leave payoffs for the upcoming year and include the amount in their budget and work with the CAO to determine the funding strategy to include the appropriate amount in the Recommended Budget. Strategies may be:
 - a. If the Department has sufficient appropriations to fund the accrued leave payoff, the Department shall absorb the cost.
 - b. If the Department cannot absorb the cost, the Department must work with the CAO to determine the funding source(s) to offset the increased costs. Funding from the **General Fund Balance for Accrued Leave Payoff** may serve as a resource to provide the affected Department with the General Fund share of the employee payoff.
 - c. The General Fund share of the estimated accrued leave payoff will be appropriated in the General Expenditures budget during the budget process. This appropriation will be funded from the **General Fund Balance for Accrued Leave Payoff**.
 - d. The CAO is authorized to make necessary budget adjustments to the affected Department(s) **without** Board approval up to the amount appropriated in 3. c. above.
4. Unanticipated Accrued Leave Payoffs. During the budget year, Departments may have employees retire/terminate that were not factored in the accrued leave payoff calculation. Departments should consult with the CAO to determine the most appropriate funding strategy.
 - a. General Fund Departments or Departments that receive a General Fund contribution should determine if sufficient appropriations are available in their budget to absorb the payoff, and, if not, work with the CAO to determine the appropriate level of funding from the **General Fund Balance for Accrued Leave Payoff** as indicated above in 3. c. or General Fund Contingency. These actions require a 4/5 vote of the Board.
 - b. Non-General Fund Departments or Departments that do not receive General Fund contributions will need to determine if their respective program has sufficient appropriations or contingencies to support the accrued leave payoff and should adjust their budget accordingly at Midyear or Third Quarter, if necessary. If their respective program does not have sufficient appropriations or contingencies to support the accrued leave payoff, the Department(s) should work with the CAO to determine the appropriate funding strategy.

Contingency Policy

On February 13, 2007, the Board adopted the General Fund Contingency policy to establish a level equal to 10% of the General Fund total budget. The current recommendation from staff for FY2017/18 is to maintain a \$9 million contingency amount within

County of Solano

Budget Construction & Legal Requirements

the General Fund which is approximately 4% of Proposed General Fund Expenditures, reduced from \$12.7 million in FY2016/17. Appropriations for Contingencies are legal authorizations granted by the Board of Supervisors to be used for one-time unexpected needs that arise outside of the regular budget planning process. Pursuant to Government Code §29130, access to the Appropriation for Contingency requires a 4/5 vote of the Board of Supervisors.

Investment Policy

The County maintains an Investment Pool managed by the Treasurer-Tax Collector-County Clerk. The Pool acts as a depository for funds from over 80 units of local government, including funds of the county school districts, special districts and other entities.

Amounts deposited in the Investment Pool are invested in accordance with investment policy guidelines established by the County Treasurer and approved by the Board.

The primary objectives of the Policy are:

- Safety - Maintain the security of principal
- Liquidity - Ensure adequate liquidity to meet its cash flow needs for pool participants
- Yield - Generate returns commensurate with the inherent risks being managed

The Policy addresses the soundness of financial institutions in which the County deposits funds, types of investment instruments as permitted by the California Government Code §53601, and the percentage of the portfolio that may be invested in certain instruments with longer maturity.

Debt Policy

The County Administrator's Office maintains a Debt Advisory Committee, consisting of the Assistant County Administrator and/or Budget Officer, Auditor/Controller, and Treasurer/Tax Collector/County Clerk. The Committee provides analyses and recommendations through the County Administrator for policy implementation and oversight.

The County establishes fund accounts to manage and budget resources for the payment of interest and principal for general long-term debt. The County also incurs debt when prudent to reduce future costs, such as pension obligation bonds.

Conditions for debt issuance are as follows:

- Purpose and Use of Debt - long-term General Fund debt will be incurred based on the County's needs and ability to repay, and where appropriate, methods and sources of funding will be maximized. Long-term debt will be restricted to those capital improvements that cannot be funded from current revenues.
- Types of Debt - includes General Obligation Bonds, Revenue Bonds, Certificates of Participation, Commercial Paper, Lease-Purchase Agreements and other obligations.
- Project Life - debt shall not exceed the useful life of the asset being acquired or constructed.
- Refunding Policies - the County maintains a debt structure that allows for early retirement of debt.

Restrictions on debt issuance include:

- The use of debt to fund operating costs or projects associated with operating costs are prohibited.
- Short-term debt will not be used to finance long-term debt.

Debt service limitations include:

- Debt is a policy decision which requires a financial condition analysis that incorporates economic trends, benchmark studies, and all other forces impacting the future finances of the County.
- Analysis of debt burden is measured, but not limited to, the following ratios:
 - Debt service requirements as a percentage of General Fund Revenue.
 - Debt service as a percentage of Per Capita Income.

County of Solano

Budget Construction & Legal Requirements

- Debt service as a percentage of General Fund Expenditures.

In addition to the policy above, California Government Code, §29909 states the total amount of bonded indebtedness shall not at any time exceed 5% of the taxable property of the county as shown by the last equalized assessment roll.

Resource Reduction Strategy

In the event reductions in resources in any fiscal year require actions to balance the budget, the County will be guided by the following:

1. General Philosophy

- a. To the extent possible, across-the-board reductions in expenditures will be avoided. Reductions will be made on a case-by-case basis. The emphasis will be on conserving General Fund discretionary resources to finance high priority programs, as set forth in the Solano County Strategic Plan adopted by the Board on December 11, 2007 and as further defined by the Board annually. If necessary, funding for lower priority programs will be reduced or eliminated to ensure appropriations remain in balance with resources;
- b. The County administers a number of costly State programs that are heavily funded by State and federal dollars. Compared to the State and federal governments, the County has only limited ability to raise revenues. Recognizing that, in the event of a substantial reduction in resources for these programs, the County's goal, to the extent legally possible, is to avoid back-filling reductions in State and federal dollars with County discretionary dollars;
- c. Maintaining a highly professional service delivery system is of foremost importance to the County. Thus, if it becomes necessary to make significant service delivery reductions, the goal will be to reduce the quantity of a service provided rather than the quality of service; and
- d. Finally, every effort will be made to continue capital and planning programs geared toward meeting the County's long-term needs.

2. Resource Reduction Priorities

a. Short-Term Actions

The following actions, listed in priority order, will be considered when dealing with the immediate impact of a reduction in resources. The purpose of these actions is to achieve immediate savings and/or better position the County to deal with the impact of longer-term actions once they are implemented.

- i. A Selective Hiring process will be implemented. Funding sources, Board priorities, the nature of the program, the potential for service delivery disruption, and the type of position – is it “Mission Critical?” will be considered by the CAO in implementing the hiring process.
- ii. Implementation of new programs, not fully operational, that are not fully revenue-offset, will be subject to further CAO review and recommendation to the Board.
- iii. Purchase of equipment will be selectively deferred and reviewed annually. Funding source and impact on service delivery will be considered in implementing the deferral.

b. Long-Term Actions

The following actions will be considered when dealing with the longer-term impact of a significant reduction in resources. As appropriate, these reductions will be reflected in the Recommended Budget, and/or Midyear or Third Quarter budget adjustments. The actions are listed in priority order and lower priority actions will be implemented only if higher priority actions are insufficient to deal with the fiscal shortfall:

- i. General Fund discretionary contributions to certain programs that are primarily the State's responsibility will be capped at current levels, to the extent legally possible. Except as required by law, the County will not use General Fund dollars to backfill reductions in State or Federal funding for these programs.
- ii. A moratorium will be placed on implementing new programs or expanding existing programs if the cost of those programs or expansions is not fully revenue-offset and a secure long-term funding source is not identified.

County of Solano

Budget Construction & Legal Requirements

- iii. Moderate service level reductions will be proposed on a case-by-case basis. These service level reductions will focus first on reducing General Fund support for those programs that have not been identified as a high priority by the Board.
- iv. Discretionary resources that have been earmarked by the Board for certain purposes will be proposed for re-allocation to fund on-going programs that are a priority for the Board.
- v. General Fund support to outside agencies not controlled by the Board should be greatly reduced or eliminated. This refers to the use of General Fund to support outside agencies whose programs are not aligned with Board priorities, and/or the County has determined would not be provided directly by the County.
- vi. Major program reductions will be proposed in accordance with the Solano County Strategic Plan and the General Philosophy described above. These reductions will fall into two general categories:
 - Program reductions that will be made in response to significant reductions in State funding for programs that are primarily the State's responsibility. In this case, the County will consider returning responsibility to the State for operating those programs to the extent permitted by law. Where returning responsibility to the State is not legally possible, County General Fund support for these programs will be reduced to the minimum level possible, consistent with State mandate requirements.
 - Program reductions will be proposed in response to a reduction in County discretionary revenue. In this case, reductions will be made first in those programs that are not related to the Board's priorities and goals.

Hiring Policy-Past Actions by the Board of Supervisors

In FY2010/11, a Selective Hiring Freeze process was instituted to help contain costs due to the State's continuing budget shortfall and to help balance the County's Budget. The County Administrative Officer (CAO) was authorized to selectively fill vacant positions based on the affected Department's need and the particular position's function. Authorization to recruit for vacant positions was reviewed in terms of the definition of "Mission Critical" positions presented to the Board on October 4, 2011 and was further defined in June 2013.

FY2017/18

Due to Increasing salary and benefits costs associated for current and new positions authorized to meet mandates and Board approved promotions, the County Administrator recommends to the Board that the County continues a hiring policy that requires the CAO office to deliberately review all permanent, limited term, part-time, and extra-help positions when they become vacant to see if they should be retained and rehired with new employees. Departments will have to demonstrate the critical need in operations and funding strategies to the CAO office for any new additional positions to be added during the fiscal year.

1. Duration

This Policy will be in effect for FY2017/18 and until the State and federal budgets and fiscal policies and their impacts on the County are known and a long-term plan to address those impacts is formulated and approved by the Board.

County of Solano

Budget Construction & Legal Requirements

2. Goal of Hiring Process

The goal of this Policy is to contain costs and to provide clear direction for hiring and implementing staffing reductions, if necessary.

3. Hiring Guidelines

The County Administrator's approval is required to fill departmental position requests. In evaluating whether to fill a vacant position, the following is to be considered:

- a. Is the position critical to the operation of an essential public safety activity, such that not filling the position will put the lives, health or safety of residents or other staff at risk? Is the position critical to avoid liability and limit impairment or disruption to the delivery of mandated services? If the answer is yes to both questions, the position can be considered for approval by the CAO.
- b. Is the program that the position supports funded on an on-going basis by a dedicated and assured revenue source? Is the position unique to that program? If the answer is yes to both these questions, then, absent other considerations, the position can be advanced for CAO consideration.
 - i. A position is considered unique to a program when the classification is not located in any other department or program. Examples might be Librarians or Engineers. In this context, an Office Assistant would not be a unique position, because this classification is found in many different programs and, in the event of the potential need to eliminate filled positions, an Office Assistant could be transferred from one program to another within the County organization.
 - ii. Before consideration will be given a position that meets the stated criteria, departments should evaluate whether the resources involved could instead be used to help mitigate the impact on the County of revenue reductions in other areas.
- c. If a position is not filled, is the resulting reduction of services for a program below a legally mandated level? If the answer is yes, the position can be considered, but subject to the following:
 - i. The Department should first explore obtaining a waiver of any service level mandate or the feasibility of ending the program or returning responsibility for the program to the State.
 - ii. To the extent practical, efforts should be made to fill the position using the call-back of a laid-off County employee formerly serving in the same classification, or extra help or through internal recruitment.
- d. If a position is not filled, is the result a diminished service level where, in the department's judgment, the program's effectiveness is seriously compromised? If the answer is yes, the department should further consider the following:
 - i. Is this a high priority program as determined by the Board of Supervisor's Strategic Plan and priorities?
 - ii. A thorough exploration of alternative means of providing adequate services has determined they are not feasible or are more costly.
 - iii. To the extent practical, efforts should be made to fill the vacant position using the call-back of a laid off County employee formerly serving in the same classification, or extra help or through internal recruitment.
- e. Is the position in question a critical and hard-to-fill position, as evidenced by repeated, unsuccessful attempts by the Department to recruit? If the answer is yes, and if the program is a high priority for the Board of Supervisors, then the position can be considered.

The Board approved in February 2008 actions in preparation for reductions that may be required for the future. These actions, reaffirmed by the Board in 2011, are:

If possible, in times of economic uncertainty, to help maintain the County's financial stability:

- Departments are directed to immediately halt the implementation of all new programs without a dedicated funding source and that are not already fully implemented.

County of Solano

Budget Construction & Legal Requirements

- Departments are required to obtain CAO approval for the purchase of all capital assets or any computer-related purchase that has not been previously included in the Refresh Policy. Approval will only be granted if the cost of the equipment is fully revenue-offset or is critical to program operations.
- Departments may be directed to take whatever steps necessary to end the fiscal year with no increase in County Contribution.

BENCHMARK COUNTIES

The following pages provide a graphical summary of statistical, employment and demographic information about Solano County. When reviewing Solano County's economic health, the County government's financial capacity, and the County's delivery of services to residents in unincorporated areas, the County inevitably compares itself from the current year to past years.

Additionally, the question of how Solano County compares with other counties is often asked. This leads to the question: Which counties should be used for comparison purposes?

A group of ten counties have been selected to be used for comparison in seven of the following charts. Solano County has the following characteristics in common with each of these counties:

COUNTY POPULATION OVER TIME

The California Department of Finance's May 1, 2017 estimate of the population of Solano County is 436,023, increasing 5,501 residents or 1.2% over 2016. Of California's 58 counties, Solano County ranks number 21 in terms of population size. All seven cities saw growth between 2016 and 2017, with the highest growth rate in Rio Vista at 4.6%.

California's population estimate was 39.52 million as of May 1, 2017, according to the State Department of Finance. California, the nation's most populous state, represents 12.3% of the nation's population, or one out of every eight persons. Solano County's population represents 1.1% of the state population.

When you look at the County population since 2000, the rate of growth has tapered off to small annual increments. Between 2000 and 2010, the County grew by 18,802, or 4.8%, which is significantly less than the 54,121, or 15.9%, gains of the previous decade. SOLANO COUNTY – SIZE, DISTRIBUTION AND WHERE PEOPLE LIVE

According to the California Department of Finance’s “May, 2017 City/County Population Estimates,” 83% of California residents live in incorporated cities and 17% in unincorporated areas. In contrast, 95.5% of residents in Solano County live within the county’s seven cities. This phenomenon is by design. In the early 1980s the residents of the County passed an Orderly Growth Initiative, which was extended in 1994, that focuses most urban growth to the incorporated cities. The voters reaffirmed this measure through the adoption of the 2008 Solano County General Plan, sustaining a commitment to orderly growth through 2028.

In comparison to its benchmark counties, Solano County is one of the smaller counties in terms of square miles of land area. According to the U.S. Census Bureau, Solano County consists of 907 square miles, of which 78 square miles is covered with water. The San Pablo Bay, Suisun Bay, the Carquinez Straits, and the Sacramento River provide the County with natural borders to the south and east. Rich agricultural land lies in the northern area of the County while rolling hills are part of the southern area. Approximately 62% of the county land area is comprised of farmland.

This unique mixture of a sizeable urban population and a large rural/agricultural base may create some unique challenges for County government, including:

- Challenges in the transition zones between urbanized areas and agricultural areas (i.e., land use, pesticide use, dust, noise, odors and vermin).
- Coordination of infrastructure transitions from the urban areas to the rural areas (i.e., reliever routes, upgraded feeder streets/roads, flood control, limited intercity connectivity and public transportation).
- With limited resources and a reliance on property taxes and State/federal funding, it is a challenge to provide urban-driven needs (as indicated by the high density per square mile) for health, mental health, public assistance and law and justice services.

SOLANO’S POPULATION LIVING IN POVERTY – HOW WE COMPARE

The U.S. Census Bureau defines the poverty threshold for an average family of four living in the United States as having a median annual family income of \$24,250 or less. The poverty threshold for that same family living in the state of California is \$24,300, or \$50 more than the national average. The average median annual family income for families of four living in Solano County is \$67,433, or almost two and a half times the state and national average.

According to the 2011-2015 American Community Survey by the U.S. Census Bureau, 10.3% of the Solano County population is living at or below the poverty level. The poverty rate in Solano County was 16.4% among residents age 18 and under and 22.3% among families with female head of household and no husband present.

The number of residents living at or below the poverty level varies considerably among Solano County’s seven cities, including Benicia, 3.8%; Dixon, 11.2%; Fairfield, 10.3%; Rio Vista, 9.5%; Suisun City, 10.1%; Vacaville, 8.9%, and Vallejo, 14.2%.

Solano County is located near the mid-point when compared to benchmark counties, with 6 counties having lower poverty rates and 4 counties with higher poverty rates. Solano County is 1.9% lower than the statewide average for families living at or below the poverty level.

HEALTH INSURANCE COVERAGE, HOW WE COMPARE

Health insurance is a means for financing a person's health care expenses. While the majority of people in the United States have private health insurance, primarily through an employer, many others obtain coverage through programs offered by the government. Other individuals do not have health care at all, which can greatly impact the services they receive and escalate the costs associated with health care, the poor, and the long-term outcomes of those without coverage.

Nationally, the percentage of people without health insurance coverage decreased by 2.3% between 2014 and 2015, from 11.7% uninsured in 2014 to 9.4% (or 29.7 million people) in 2015. After several years of a relatively stable uninsured rate between 2008 and 2013, as measured by the American Community Survey (ACS), the percentage of people who were uninsured dropped by 2.8% between 2013 and 2014. The overall number of uninsured residents continued to trend downward between 2014 and 2015.

According to the ACS, the national increase in the percentage of the population covered by health insurance was due to an increase in both private and government coverage. The rate of private coverage increased by 1.1 percentage points to 67.5% in 2015 (up from 66.4% in 2014), and the government coverage rate increased by 1.5 percentage points to 34.7% (up 33.2% from 2014).

In California, the percentage of people with health insurance coverage (either private or public) increased from 87.6% in 2014 to 91.4% in 2015, or 3.8% overall. The increase translates to more than 1,468,686 Californians gaining access to health care coverage in the course of a year. The percentage of Californians with private health insurance coverage, either from an employer or private payer, increased less than 1% from 61.8% in 2014 to 62.5% in 2015. Conversely, the percentage of Californians with public health insurance increased 3.7% to 38.0% in 2015, up from 34.3% in 2014. As a result, and with the expansion of the Affordable Care Act (ACA) and Covered California, the total number of Californians with no health coverage (private or public), dropped from 12.4% in 2014 to 8.6% in 2015, marking a 3.8% decrease over the course of a year.

PUBLIC ASSISTANCE AND HEALTH CARE COVERAGE IN SOLANO COUNTY

Solano County's Health and Social Services Unduplicated Individual Count report states that in December, 2006, 14.7% of the County's population was receiving some form of public assistance, including CalFresh, CalWORKs, General Assistance and / or Medi-Cal (healthcare). In 2010, at the bottom of the recession, the percentage of the population receiving some form of public assistance increased to 18.7%. Today, 28.2% of the County's total population receives some form of public assistance years (see chart above).

The increase in coverage is due to the 2014 ACA (Affordable Care Act) expansion of Medi-Cal, designed to cover greater numbers of the working poor, many of whom previously lacked any options for healthcare coverage. While the numbers of residents needing public assistance in the form of cash aid has decreased to lower than pre-recession levels, the total number of residents accessing healthcare coverage through Medi-Cal has nearly doubled over the past 10 years. Today, approximately 27.5% of the total population relies on Medi-Cal for healthcare access, as compared to 17.5% in December 2010 and 14% in December 2006.

PUBLIC SAFETY – ASSEMBLY BILL 109 REALIGNMENT AND PROPOSITION 57

ASSEMBLY BILL 109 – 2011 PUBLIC SAFETY REALIGNMENT

Since the implementation of Assembly Bill (AB 109) in October 2011, the Solano County jail population continues to change. As of March 2017, the County jail was housing 38 parole violators (known as 3056 PC), 57 Post Release Community Supervision (PRCS) violators and 119 locally sentenced offenders (known as 1170 offenders), contributing to more than 21% of the 1,003 average daily population. Prior to Public Safety Realignment, the county jail population consisted of individuals awaiting trial and inmates serving sentences of less than one year. Today, after realignment, convicted individuals are now serving sentences up to 10 years in local county jails rather than State prison.

To address the evolving inmate population as a result of realignment, the County is pursuing a two-prong approach – increasing capacity within the jail system and incorporating training programs into the jails to provide offenders with skills to enhance their ability to successfully re-enter the community. Non-serious, non-violent, non-sex offenders have transitioned from supervision by State parole officers to County probation officers. While this shift did not increase the population of supervised offenders in Solano County, it shifted the supervising agency, and it did shift responsibility to address recidivism to counties as well as supervision.

PROPOSITION 57

The passing of Proposition 57 (Prop 57) on November 8, 2016 allows parole consideration for nonviolent felons, changes policy on juvenile prosecution in adult courts and authorizes sentence credits for rehabilitation, good behavior and education. Prop 57 also permits the parole board to release nonviolent prisoners once they have served the full sentence for their primary criminal offense. Previously, prisoners served extra time for sentence enhancements, such as those for repeat offenders. Recently, pursuant to the Prop 57 requirement, the Department of Corrections and Rehabilitation has proposed uniform parole rules.

Under Prop 57, several criteria must be considered by the courts before determining whether a minor should be prosecuted in the Juvenile or Adult Court, including the degree of criminal sophistication exhibited by the minor, whether the minor can be rehabilitated prior to the expiration of the juvenile court's jurisdiction, the minor's previous delinquent history, the success of previous attempts by the juvenile court to rehabilitate the minor and the circumstances and gravity of the offence alleged in the petition to have been committed by the minor.

Because Prop 57 just passed in November 2016, it is difficult to speculate, at this time, any affects the new law may have on the Solano County jail population. Since the burden is on the prosecution to prove to the Juvenile Court Judge that a minor cannot be adequately rehabilitated by the Juvenile Justice system, the District Attorney, Public Defender and Probation Departments are the most likely to be impacted, as juvenile transfer hearings are very detailed and involve a great deal of investigation and expertise.

THE STANTON CORRECTIONAL FACILITY AND VOCATIONAL TRAINING CENTER – SB1022

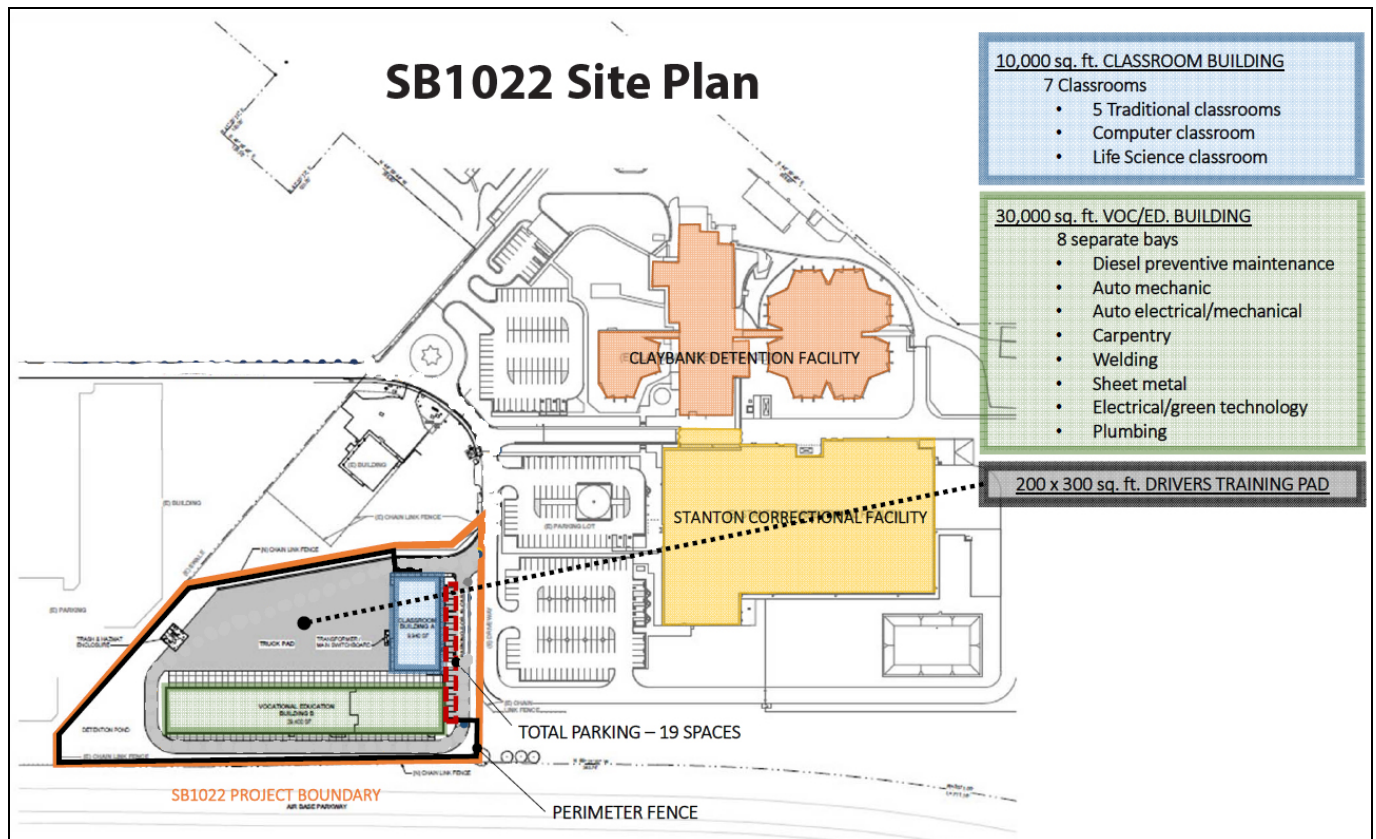

In 2015, the Stanton Correctional Facility, a 365-bed adult detention facility adjacent to the Clay Bank Road facility in Fairfield started housing inmates. The project, funded by \$61.5 million in State AB900 local jail construction financing and local public facilities fee proceeds, uses state-of-the-art electronic security systems to optimize public and inmate safety.

In 2016, in order to take advantage of SB1022 funding, the Solano County Board of Supervisors approved a budget in the amount of \$25.6 million, 90% of which will be funded by the State and 10% by the County, toward the construction of a new training, vocational and rehabilitation facility.

The project, located adjacent to the Stanton Correctional Facility, is designed for approximately 40,000 square feet of classroom, vocational and administrative space, including traditional classrooms, computer training, life sciences, auto mechanics, carpentry, welding, sheet metal, plumbing, diesel preventative maintenance and electrical and green technologies.

Slated for completion in mid-to-late 2018, the new SB1022 vocational training center project will provide support programs that establish or expand rehabilitation programs for adult offenders and prepare them for productive employment in order to reduce the overall recidivism rate among Solano County’s incarcerated population.

OUR CHANGING POPULATION – THE NEXT SEVERAL DECADES

Solano County’s population is projected to grow from 429,267 in 2015 to 633,039 or 32.2% by 2060, according to projections by the California Department of Finance. The composition of this population is expected to shift significantly over the next 40 years, with the median age increasing from 37.6 in 2015 to 43.2 in 2060. The aging population will likely affect the types of service demands placed on the County and may impact statewide and regional planning efforts.

One way to evaluate this population change is to analyze the dependency ratio, which examines the population changes in relationship to the traditional working age population of individuals between ages 19 to 64. In 2010, for every 6.2 people in the County workforce there were 2.6 children and 1.2 retirees. By 2060, the young population (age 19 and younger) is expected to increase 20,324 or 18%; while the working age population by 95,851 or 38% and retiree population (65+) by 104,291 or 320%.

SOLANO SHARE OF POPULATION BY AGE AS PERCENTAGE OF TOTAL POPULATION, 2010 TO 2060

Source: California Department of Finance, March 2017

Over the next two decades, the Department of Finance projects more people will be entering the retiree population than those entering the working. Declines in school-age children are also projected to continue through 2020 before starting to recover in the following decade. By 2030, that trend shifts to the working age population becoming the largest population growth segment.

UNEMPLOYMENT AND THE ECONOMY

According to the California Employment Development Department's (EDD) March 2017 estimates, overall employment in California continues to improve, and has done so for a number of years. The Solano County unemployment rate was 5.4% in March 2017, down from 5.7% in 2016. The March 2017 unemployment rate for the State declined to 5.2%, down from 5.6% a year ago.

Between March 2016 and March 2017, overall employment in Solano County increased by 2,000 jobs while the size of the workforce grew by 1,600 people actively seeking employment. This resulted in a net reduction of 400 unemployed residents.

According to the market data, Solano County continues to show moderate improvement in residents becoming employed. The unemployment rate for Solano County also reflects job growth regionally, as local residents become employed outside the County. As a result, unemployment rates across all seven cities decreased slightly between March 2016 and March 2017.

THE SOLANO COUNTY WORKFORCE – WHERE PEOPLE GO TO WORK, MARCH 2017

Source: California Employment Development Division for Solano County, March 2017

The unemployment rate in Solano County was 5.4% in March 2017, which is three-tenths of a percent below the estimate of 5.7% a year ago. This compares with an unadjusted unemployment rate of 5.2% for California and 5.1% for the nation during the same period.

As of January 2017, projections from the Business Forecast Center at the University of Pacific indicate Solano County will continue to see modest gains in employment without “commute to work” being a contributor to overall employment, and local job growth being modest to flat. In California, Health Services has become the largest employment sector in the state and is projected to add an additional 40,000 position over the next 12 months.

In Solano County, Trade, Transportation, Utilities, Education, Health and Government Services are all tied for the Counties largest employers at 18% each, making up 54% of the total workforce. A growing tourism market and a gradual shift in consumer spending from retail to restaurants has fueled rapid growth in the Leisure and Hospitality sector, however, this sector’s growth may decline a bit moving into 2020 as increases to the minimum wage may slow hiring.

Between March 2016 and March 2017, eight of 12 industry sectors in Solano County tracked by the California Employment Development Division showed overall employment growth, while four sectors retracted slightly, demonstrating a shift in overall employment toward Educational, Health and Social Services, Trade, Transportation, Utilities, Government, Leisure and the Hospitality and Financial Activities industries. The overall shift reflects 2,500 individuals out of a 136,400 employment pool.

CHANGE IN PERSONAL INCOME – HOW IT AFFECTS PURCHASING POWER

Personal income is made up of wages and salaries, transfer payments from all levels of government, investment income (dividends, interest, and rents), business income from owning a business (proprietor’s income) and other income sources. The 2016 Index of Economic and Community Progress reported that personal income grew at a faster rate in Solano County than for the United States and California as a whole, primarily based on job growth and continued growth in equity markets.

According to the 2015 statistics from the U.S. Bureau of Economic Analysis, Solano County ranks as the fourth lowest in per capita income when compared to benchmark counties. However, Solano County’s growth rate in per capita income in 2015 outpaced the State and 80% of the benchmark counties, increasing 6.52% (or \$2,902) between 2014 and 2015. Solano County’s per capita income of \$44,504 in 2015 is 17.9% (or \$9,237) less than the state’s per capita income of \$53,741.

Although personal income in Solano County is fourth lowest among the benchmark counties, as the growth in personal income continues to rise, individual purchasing power becomes more robust. When personal income grows, so does the number of goods and services that can be purchased by Solano County residents, increasing their overall purchasing power.

MEDIAN HOUSEHOLD INCOME COMPARISONS AMONG BENCHMARK COUNTIES

Median household income is comprised of the average income of every resident (of that household) over the age of 15. Sources of income include personal wages and salaries, disability payments, including child support payments received, along with personal business earnings, investments and other routine sources of income.

The *2016 Index of Economic and Community Progress* reports that along with per capita income, median household income is a good indicator of how typical households generate and use income, including spending and savings.

According to the 2015 statistics from the U.S. Bureau of Economic Analysis, Solano County ranks as the third highest in median household income when compared to benchmark counties. Solano County's median household income of \$67,443 in 2015 is an increase of \$102 per household (or 0.15%) over the previous year (2014). Even with modest gains, Solano County still outpaced 73% of the benchmark counties (or 8 out of 11) in median household income, including the State. By comparison, Solano County outperformed the State of California's median household income of \$64,500 by \$2,943 (or 4.3%).

HOUSING AFFORDABILITY – PRICES CONTINUE TO RISE, BUT WITH SOME TRADE-OFFS

According to the *2016 Index of Economic and Community Progress*, 2016 was a good year for homeowners in Solano County, with home prices 15.3% higher when compared to 2015. Single-family home sales were up approximately 2.9% (or 9,524 units), helping fuel the continued strong growth of home prices throughout the region. While Solano County home prices remain strong, the state of California, however, experienced only a 3.9% growth in single-family home prices, performing well below the market expectation of 5%.

According to the California Association of REALTORS®, Solano County's median home price in December 2016 was \$405,000, a 126% increase from the lowest price during the depths of the Great Recession (\$179,000 in 2011). As a comparison, single-family median home prices in the state of California hit rock bottom in February 2009, and, since that time, has only grown 108%, an 18% lag behind Solano County.

Rental prices have also slowly increased, another sign of both excess demand for housing purchases and for rental housing. According to Zillow Research, in February 2011, the average rental price for one and two-bedroom apartments in Solano County was \$1,687 per month. In December 2016, that figure was \$1,981 per month, an increase of 17.4%.

While rising home prices are great for homeowners, rising home and rental prices come with some trade-offs, including increased market pressure on lower-income workers and families. When families spend more money on homes and rental properties they have less disposable income to spend in the community. They may also have to commute longer distances to find work that pays well enough to afford the high cost of living. On a positive note, Solano County's home prices – when compared to neighboring counties – are relatively low, and therefore affordable and can act as an economic development tool.

Another way to look at housing affordability is through the California Association of REALTORS® "Housing Affordability Index" or HAI. The HAI takes household income levels and an estimate of the cost of owning a home (mortgage, average cost of utilities and maintenance, etc.), and compares them to determine what percentage of the population can afford to buy a home at the current median home price. If household income does not keep pace with local housing prices, affordability falls. As of October, 2016, Solano County is at 45% on this index, which means at current median household income levels and median home prices, 45% of people looking to purchase a home in Solano County can afford to purchase a home.

SOLANO COUNTY AGRICULTURAL CROP AND LIVESTOCK VALUE

Due to an exceptionally wet year, complete with heavy rainfall and flooding in some areas, the Solano County Department of Agriculture, Weights and Measures is still working with local growers to determine a more precise farm gate value (a farm gate value is the net value of a product when it leaves the farm and after marketing costs have been subtracted) for 2016. Very early estimates by the department put this number in excess of \$300,000,000, a decrease of 10.4% from 2015.

Despite the stormy weather, 2016 was a very productive year for the Agriculture division. Biologists visited a record 1,903 nursery and urban locations throughout the County to survey, trap and help mitigate exotic pests, including the Glassy Wing Sharp Shooter, European Grapevine Moth, Light Brown Apple Moth and Asian Citrus Psyllid.

The Agricultural division has also been actively reviewing and issuing an increasing number of federal export certification documents, representing more than 1,200 shipments of export commodities, including livestock, field crops, fruit and nuts, nursery products, seeds and vegetables. The growing number of exports of commodities demonstrates the ever-increasing value of Solano County agricultural products around the globe.

The division of Weights and Measures visited, examined, tested and certified a record 17,050 measuring devices, including scales at grocery stores, farmer's markets, produce stands, gas stations and wholesale distributors, up 937 (or 6.5%) from the previous year. Staff also inspected and certified 4,259 petroleum meters, up 58 (or 2.4%), including gasoline and diesel pumps at gas stations, mobile home and recreational vehicle parks and marinas.

COUNTY ASSESSED VALUES AND GROWTH

Property taxes are a major source of local governmental revenues and are determined by assessed values. The property tax rate throughout the State of California is 1% of assessed values. The 2017 Property Assessment Roll of \$52.2 billion increased 6% (or \$2.9 billion) from the prior year's roll value and represents property ownership in Solano County as of January 1, 2017. This is the fifth year of increasing assessed values since the bottom of the market in 2011 and the highest year on record.

The lingering effects of the Great Recession can still be felt on the assessed values of properties in Solano County, which experienced dramatic drops in median home prices and high numbers of foreclosures. According to the California Association of REALTORS®, the median home price fell from a high of \$475,755 in 2006 to a low of \$179,000 in 2011. As of December 2016, the median home price in Solano County is \$405,000, an increase of approximately 15.3% from 2015. Home prices are expected to climb an additional 3.8% within the next year. The recovering real estate market has infused value back into homes that experienced decline, and as a result, the overall assessed value of county real estate continues to increase.

The recovering real estate market continues to fuel the decrease in the number of properties on Proposition 8 status - a temporary reduction in property values below their established Proposition 13 base year value. As of 2017 year-end close, 3,893 properties have established a new base year value through a change in ownership or have recovered assessed value to their Proposition 13 value. According to the Solano County Assessor-Recorder's Office, as of August 2017, 14,430 parcels remain on Proposition 8 status, whereas in 2012, that number peaked at 78,000 parcels countywide.

BUILDING PERMITS IN SOLANO COUNTY

Building permits generally act as a leading indicator of economic activity, predicting the growth of construction jobs and the demand for raw materials in order to build residential and commercial units. According to the US Census Bureau for Construction Spending and 2016 Index of Economic and Community Progress, Solano County has experienced a growth in the number of building permits issued since 2012 (see graph below), a trend that is likely to continue based on relatively low interest rates and rising home prices, driving developer's incentives to build.

Commercial space construction is a powerful indicator of confidence in the local and regional economies, as employers build and/or occupy more space as a business grows. Solano County permitted approximately 1.76 million square feet of new commercial space in FY2015/16 – down approximately 50% from the market high of 3.25 million square feet issued in FY2005/06 – however, this number has continued to trend in a positive direction over the past 5 years.

Residential building permits are another way to forecast an increase in housing units, construction activity around housing, and subsequent impacts on the economy. The County issued 875 new building permits for residential, single-family housing units in FY2015/16, slightly less than the previous fiscal year, however, almost double the number of annual permits issued between fiscal years 2008 through 2014.
