

Rezone - Submittal Requirements Checklist

This submittal requirements checklist details the documents and information necessary to file a complete Rezone application with the Planning Services Division. Potential applicants are encouraged to consult with Planning staff in order to identify all necessary submittal documents prior to application filing. Submittal requirements may vary by project and are dependent upon the specific development proposal, land use, and other factors.

GENERAL REQUIREMENTS – All documents, plans, or exhibits must be **clear and legible**.

- Land Use Application** – Completed [Land Use Application](#) signed by all property owners. If the owner or applicant is a corporation, documents identifying the officers of the corporation must also be submitted.
- Assessor's Parcel Map** – APN map with the subject properties outlined in red. Maps may be obtained via the Solano County Assessor / Records office and online at: <http://www.solanocounty.com/depts/ar/viewparcelmaps.asp>
- Project Description** – Completed written [Project Description](#) for the development proposal. A thorough, detailed, and quantified project description is required for a complete application and will facilitate the project review and permitting process, reduce processing timelines, and help ensure a well-designed project.
- Environmental Evaluation Questionnaire** – Completed [Environmental Evaluation Questionnaire](#) for the development proposal. A thorough, detailed, and quantified environmental evaluation questionnaire is required for a complete application.
- Title Report** – Provide a preliminary title report of the subject property prepared within the last year. The report should detail any conditions, easements, agreements, deed notices, or other restrictions on the property. A preliminary title report may be obtained from a title company. Please include copies of any easements, agreements, or restrictions on the property.
- Development Plans** – Provide **one 24" x 36" AND one 8.5" x 11" or 11" x 17"** size set of plans, as well as PDF electronic copies for each of the following: Site Plan.
- Site Plan** – A well-prepared site plan is an integral part of your development proposal and application submittal. An accurate, dimensioned, clear, and legible site plan is required to facilitate proper review of your project and reduce application processing times. Reference the Planning Services Division [Sample Site Plan](#) for a complete list of information to be included on your site plan. Basic elements of the site plan include:
 - Project name, date prepared, revision noted if necessary
 - North arrow, scale notation, graphic scale bar, and vicinity map
 - All property lines of the entire subject site, indicate the size of the property
 - Location of roadways (labeled), including right-of-way

Indicate existing and proposed

- Buildings and structures, including square footage, dimensions, and type of use

- Setback distances to property lines and between structures
- Public road frontage or access route from the nearest public road
- Location and nature of all easements
- Driveways and parking spaces
- Septic systems and leach fields
- Onsite water source, supply, and storage facilities
- Landscaping, retaining walls, and fences. Indicate height and type of construction (wood, stone, wrought iron, etc.)
- Development on adjacent parcels within proximity of the subject property

- Photographs** – Provide representative photos of the subject site and in relation to surrounding areas. Include one printed set as well as PDF electronic copy.
- Electronic Copies** – Provide electronic copies of all application materials on CD in PDF or JPEG format. Electronic copies may be shared via Microsoft OneDrive or emailed to planning@solanocounty.com.
- Application Filing Fees** – Application fees are paid to the County of Solano. Please consult the [Planning Services Division Fee Schedule](#) for appropriate application filing fees.
- Agreement for Supplemental Application Processing Fees** – Completed [Agreement for Supplemental Application Processing Fees](#) signed by all property owners. If the owner or applicant is a corporation, documents identifying the officers of the corporation must also be submitted.

MISCELLANEOUS - In addition to the General Requirements, the following items are required for projects meeting these criteria:

- Land Conservation Contract** – Williamson Act Supplemental Questionnaire completed and signed by all property owners. If the owner or applicant is a corporation, documents identifying the officers of the corporation must also be submitted.
- California Board of Forestry and Fire Protection State Responsibility Area** – [Fire Safe Regulations Checklist](#) completed and signed by all property owners. If the owner or applicant is a corporation, documents identifying the officers of the corporation must also be submitted.
- Preliminary Site Grading, Storm Water Management, and Drainage Plan** – required for projects that meet or exceed any of the following thresholds listed below. Contact Public Works – Engineering at (707) 784-6765 for contents of Grading Plan submittal.
 - Landscaping area 10,000 square feet
 - Excavations:
 1. 50 cubic yards total movement on any site
 2. 5,000 square feet of area disturbed
 3. 3 feet in depth
 4. 2:1 slopes
 - Fills:
 1. 50 cubic yards or more of total movement on site
 2. 5,000 square feet of area disturbed
 3. 3 feet in depth
 4. Placed on existing surfaces with slopes of 7:1
 5. Create slopes 2:1 or greater
 6. Change existing off-site drainage patterns

7. Are used for structural support

Grading Plan review **not** required for:

- Structure excavations (pools, basements, septic tanks, leach fields, etc.)
- Agricultural activities except for land that has not previously been graded or leveled
- Utility trenches, wells, exploratory excavations
- Disposal areas, landfills, quarrying, stockpiling, or other operations where a Use Permit has been granted
- Grading by Solano County or Special Districts
- Land leveling by permit for agricultural purpose
- Fire roads and breaks
- Grading located within the Primary Management Area of the Suisun Marsh
- Projects on State or Federally owned and operated land
