

2021 First 5 Solano Pre -K Academies

Pre-Kindergarten (Pre-K) Academies provide quality early childhood education for children entering Kindergarten who have not previously attended pre-school or can benefit from additional preparation prior to starting school. Pre-K Academies target children who are English Language Learners or considered “high-risk” due to factors such as poverty, remoteness, substance abuse, family violence, child abuse and neglect and special needs.

Pre-K Academies have a positive and lasting impact on children by giving valuable early learning experiences in the classroom. If you have a child entering Kindergarten in the fall and would like them to participate in an Academy, please call or e-mail the contact in your city.
