What to do if you test positive for COVID-19 or are exposed to someone with COVID-19

# If you test POSITIVE for COVID-19 (regardless of vaccination status)

Option 1:

Day 1-5

Day 5

Day 6-10

**Day 11+** 

Stay home

Get tested on <u>Day 5</u>

If test is negative AND no fever or symptoms are better, you can leave home, but keep masking.

If test is **positive** continue to isolate.

NO testing required after day 10, regardless of previous testing results.

Option 2:

Day 1-10

<u>Isolate</u> for <u>10 days</u> if unable to test or if you test positive on day 5.

**Day 11+** 

Please note: If you have a fever, continue to stay home until it goes away at least 24 hours without anti-fever medicine.

### If you were EXPOSED to COVID-19 & are up-to-date on vaccination

**Day 1-5** 

Day 5

Day 6-10

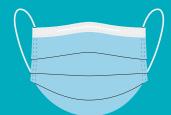

You can keep working.

Get tested on Day 5

If test is positive, follow isolation instructions

Wear a mask around others

If you develop symptoms, get tested right away & stay home

### If you were EXPOSED to COVID-19 & are not vaccinated or up-to-date

**Day 1-5** 

Day 5

Day 6-10

Do not go to work

Get tested on **Day 5** 

- Negative & no symptoms, can return to work
- If **positive**, follow positive guidance for Employed **Population**
- If symptomatic, stay home and get tested.

Wear a mask around others

If you develop symptoms, get tested right away & stay home

#### FOR GENERAL POPULATION

## If you test POSITIVE for COVID-19 (regardless of vaccination status)

**Day 1-5** 

Day 6-10

**Day 11+** 

Stay home

- Can leave home
- Wear a mask around others
- Monitor for symptoms
- Isolate if you become symptomatic

NO testing required after day 10, regardless of previous testing results.

Please note: If you have a fever, continue to stay home until it goes away at least 24 hours without anti-fever medicine

#### FOR GENERAL POPULATION

## If you were EXPOSED to COVID-19 (regardless of vaccination status)

Day 1-10

You do **not** need to stay home

Wear a mask around others for 10 days

If you develop symptoms, get tested. While waiting for test results, follow self-isolation guidance.

If you develop symptoms, get tested right away & stay home
