Here in Solano County we take seriously our role in local government to create a bright and promising future for everyone who lives, learns, works and plays here – free of discrimination – by establishing and maintaining the social, economic and physical environments that promote good health while protecting vulnerable populations - giving everyone the chance to succeed. Our residents share in this promise, and, by working together, we endeavor to establish communities where people are safer, families are stronger and local economies thrive. By acknowledging the significant contributions of diverse groups of people – both present and in the past – we welcome a future that is bright and promising, while embracing a set of values that gives everyone the chance to be the best versions of themselves they can possibly be. Additionally, our County, in support of small businesses and the middle class, advocates for counties with populations under 500,000, including Solano County, to get direct entitlements from the State of California for economic stimulus, and for other programs that help provide a quality of life for our residents. All persons within Solano County are free and equal, and shall not be discriminated against based on their gender, race, color, religion, ancestry, national origin, disability, medical condition, genetic information, marital status, sexual orientation, gender identity, primary language, citizenship, or immigration status. To that end, Solano County strives toward equity in all aspects of representing the community and ensuring equal access for all residents to public programs.

PRIORITY ISSUES

The ability of Solano County to serve its residents and provide for a thriving and sustainable community requires support from all levels of government. The State of California's (State) actions continue to greatly impact the County's ability to provide vital services to the public. To fulfill the County's commitment to the community, additional State resources should be sought to support the County's mission to enrich the quality of life locally. To this end, the County Board of Supervisors supports the priorities and the legislative principles set forth below.

Priority issues are those that have a significant impact on County business and on which County staff, including the County's State legislative advocates, will concentrate their legislative efforts during the 2022 Legislative Session. The County's top priorities (Listed Alphabetically) include:

- **Continuation of Expanded MediCal for Uninsured** – Support healthcare policy implementation efforts that do not have an adverse financial impact to the County. Examples of impacts may include unfunded or underfunded mandates, or reallocation of existing County funding that result in an increased General Fund obligation. Support ongoing and new efforts related to increasing the number of insured persons and to providing and expanding primary care services and public health prevention services and activities.
- **Children, Youth, and Families** - Support legislation and budget efforts that support children, youth, and families, including restoring and expanding quality childcare and preschool opportunities, increasing funding for homeless youth, promoting safety for all children, and supporting mental and developmental health prevention and early intervention activities. Advocate for dedicated funding streams for child abuse and youth violence prevention efforts. Collaborate with state regional offices, schools and health care systems to expand resources for parents with special needs children. Support increased funding for full implementation of the Continuum of Care initiative with the state and other state federal child welfare initiatives.
- **County Revenue Sources and Authority** - Oppose efforts to decrease, restrict, eliminate, seize, divert, supplant or otherwise restrict local autonomy, including local revenues. Oppose any efforts at the state level to eliminate, restrict, or redirect revenues currently dedicated to local government for state purposes to other agencies and/or districts. Advocate for timely, full state funding for state programs operated by the County, which include appropriate cost of living increases, as well as costs associated with increases in population and caseload growth.
- **County Strategic Plan** - Support efforts that further the goals outlined in the County's Strategic Plan as follows: (a) improve the health and well-being of those who live and work here; (b) ensure responsible and sustainable land use; (c) maintain a safe community; and (d) invest in and for the future.

- **Environmental and Open Space** – Encourage and seek legislation that protects the County’s quality of life, its diverse natural resources, and preserves the essence and history of the County. Support funding and regulatory efforts to conserve energy, and to preserve open space and agricultural viability and water conservation. Oppose any usurpation of local land use authority with respect to citing renewable energy.
- **Sacramento-San Joaquin Delta and Suisun Marsh** - Support legislative and administrative efforts to protect the Sacramento-San Joaquin Delta, including the Yolo Bypass/Cache Slough area, and County’s interests relative to land use, agricultural resiliency, economic development, police or emergency response mandates, environmental preservation, flood risk reduction and protection, habitat conservation, recreation, water supply, water quality, and water rights and efforts to combat against sea level rise and impacts from climatic changes. Support governance structures that give local government a strong and equal voice with other stakeholders in setting Delta policy, and in project development and implementation. Support actions and legislation that furthers collaborative and comprehensive planning in the Yolo Bypass/Cache Slough Region, which promotes continued agricultural health and flood risk reduction measures with other state priorities including programs to eradicate invasive aquatic weeds and harmful algae blooms throughout the Sacramento-San Joaquin Delta and adjoining waterways.
- **Seniors and the Disabled** – Support legislative, administrative and budgetary efforts that seek to maintain active and healthy independence for seniors and the disabled, including housing, funding and other support for those who are homeless or at imminent risk of homelessness. Support services that focus on comprehensive, integrated assistance for the disabled and seniors, including personal in-home care services, food assistance, prevention and investigation of abuse and neglect, and assistance accessing relevant programs such as Medi-Cal, Medicare, Supplemental Security Income (SSI), Cal-Fresh and cash assistance programs.
- **State Realignment & Cost-Shifts** - Oppose proposals to restructure, realign, or otherwise shift the cost of state programs to local government, without commensurate compensation and a legislative ability for counties to draw down available federal funding. Support efforts to distribute public safety realignment funds using an equitable formula based on population. Support efforts to improve the stability of current County revenue sources. Oppose any realignment initiatives, which fail to fully fund services shifted to the County.
- **Voting and Election Efficiencies** - Support efforts to modernize election administration to increase voter turnout, reduce the local cost of elections, reduce waiting time at polling places, increase convenience for voters, and improve voting opportunity for overseas and military voters.

Furthermore, the Solano Board of Supervisors adopts the following legislative principles (Listed Alphabetically by Policy Area):

Agriculture, Natural Resources, and Water

Solano County supports state legislative and regulatory actions that protect and enhance the County's significant agricultural, water, and natural resources. The County opposes any efforts to cut funding streams for critically important state resource programs. Specific principles include:

1. Support funding and enhancements for regulatory programs under authority of the Agricultural Commissioner/ Sealer of Weights and Measures that serve to protect agricultural resources, prevent and manage invasive pests, provide for the safe and effective use of pesticides and promote consumer protection, and extend sunsets where applicable.
2. Support actions that sustain and enhance existing pest prevention programs for pests such Mediterranean fruit fly and glassy-winged sharpshooter and provide resources to effectively addresses emerging threats such as nutria, broomrape and spotted lanternfly, and provide indemnification relief and crop insurance coverage for producers affected by pest quarantines.
3. Support legislation that would improve funding for management and education programs that aid the agricultural industry and the public in safely addressing interactions with wildlife such as coyotes, bobcats, mountain lions, nutria and feral pigs, which impact agriculture, public safety, the environment.
4. Support legislation or rulemaking to allow agricultural producers to take wild pigs without a depredation permit or validation when pigs are threatening or damaging livestock, crops or agricultural infrastructure.

5. Support efforts to enhance and protect the County's farm gate, including, but not limited to, resources for producers to adopt climate resilient agricultural practices and technologies, inclusion of agricultural and working lands in climate change policies and strategies, market expansion, development of local food systems, investments in broadband infrastructure for precision agriculture, and full mitigation of agricultural and other economic impacts associated with habitat restoration efforts.
6. Support actions that promote expansion and availability of agricultural incentive programs that improve soil health, increase irrigation efficiencies, provide alternative manure management solutions and other practices that sequester carbon and reduce greenhouse gas emissions.
7. Support efforts to maintain local control/involvement in allocation of water resources, including optimizing efforts for water reuse, groundwater recharge, stormwater capture, drought management and green infrastructure. Promote aligning State programs, improving local agency coordination, and strategies and programs that address data gaps to help promote climate resiliency. Support funding for an alternate intake to the North Bay Aqueduct. Oppose legislation that would unnecessarily codify executive orders issued during a drought emergency.
8. Support legislation that promotes statewide consistency in the enforcement of pesticide laws and regulations and County Agricultural Commissioners and California Department of Pesticide Regulation primacy for pesticide use enforcement.
9. Support legislation that would provide grants to increase local producers' competitiveness in specialty crops, including fresh fruits and vegetables.
10. Support legislation that would promote funded regulatory activities for apiary inspections, biologically sound beekeeping, and protection of pollinators and native honeybee health.
11. Support legislation that encourages conservation of agricultural land through funding or other economic incentive programs, transfer/purchase of development rights, or promotion of landowner safe harbor agreements/incidental take permits that allow continued farm operations to conserve wetland and grassland habitats on farms.
12. Support legislation that would authorize the Environmental Protection Agency to provide funding to state and local agencies for projects aimed at advancing the goals and objectives of the comprehensive conservation and management plan for the San Francisco estuary.
13. Support changes to the California Constitution to expand the exemption from the majority property owner 2/3rds electorate vote requirement to include stormwater, flood protection/drainage fees, and permit "lifeline rates" for water and stormwater projects to benefit low-income residents. Promote programs to incentivize new developments to incorporate green infrastructure and water reuse conservation measures.
14. Closely monitor updates to stormwater rules that may have adverse effects on local communities.

General Government

Solano County supports state legislative and regulatory actions that protect and enhance the general welfare and quality of life of the County's residents. The County opposes unfunded State mandates and State actions that would preempt local decision-making authority. Specific principles include:

1. Support funding for new technology to increase accountability and efficiency of local governments.
2. Support funding formulas for the equitable distribution of state funds while opposing attempts to decrease, restrict, or eliminate County revenue sources.
3. Support funding (based on objective criteria) for the preservation, rehabilitation, and maintenance of historically and/or architecturally significant buildings and structures.
4. Support the ongoing recognition of PACE bonds as assessments.
5. Support cost recovery for the County regarding services provided to other governmental entities.
6. Support legislation that encourages mutually respectful relationships between tribal and local governments including reform to both fee-to-trust process and off-reservation gaming provisions that ensure local government is reimbursed for potential social impacts and/or infrastructure changes and/or upgrades.
7. Support legislation or regulatory reform that allows flexibility in the County's pension plan formula to ensure the County remains a competitive employer in the current market.
8. Support equitable tax sharing agreements for annexation, incorporation, and development projects.

9. Support budgetary efforts for outstanding Payment-in-Lieu-of-Taxes (PILT) funding that is owed to the County and support legislative and budgetary efforts to reinstate ongoing future PILT funding.
10. Support funding and regulatory efforts to expand broadband services to all County residents.
11. Support legislation that equally allocates grant funding to District Attorneys and Public Defenders for attorneys to staff their offices.
12. Support legislation and actions to protect Travis Air Force Base and other airports within Solano County by requiring that all projects comply with Solano County's Adopted General Plan and Airport Land Use Compatibility Plans.

Health and Human Services

Solano County supports state legislative and regulatory actions that promote the health and welfare of the County's most vulnerable residents, including children, the disabled and seniors. The County opposes any efforts to cut or redirect funding streams for critically important health and human services-related programs, such as Medi-Cal, MHSA, and established grant programs, and opposes efforts to reduce local flexibility in the implementation of such programs. Specific principles include:

1. Support legislation and funding to address and promote health equity, including health in all policies initiatives.
2. Support legislation that focuses on the prevention and early intervention of injuries, chronic illnesses and diseases, especially issues addressing health inequities that lead to greater hospitalizations and death.
3. Support legislation for prevention, education, intervention, and treatment services for youth and adults, including the disabled and seniors, with substance use issues, including cannabis, powder alcohol, alcohol, tobacco and other drugs.
4. Support legislation that promotes streamlined and efficient enrollment processes for clients enrolling into government run food programs, including but not limited to free/reduced-cost school meals, WIC, Meals on Wheels, and CalFresh.
5. Support legislation that focuses on improving oral health through prevention and education, especially toothbrushing, flossing, school-based and school-linked fluoride varnish and dental sealant services and increasing the rates of Kindergarten Oral Health Assessments.
6. Support legislation that provides tap water fluoridation to non-fluoridated communities.
7. Support enhanced funding for quality childcare services (that also provide employment and education opportunities for County residents), and for early learning opportunities.
8. Support efforts that assist foster youth in the transition to adulthood.
9. Support new or increased funding for mental health programs. Specifically support efforts to allow for flexibility for all appropriately licensed individuals to bill for provided mental health services, including same-day services.
10. Support efforts that assist seniors and the disabled to maintain active and healthy independence. Support legislation that would promote the psychological, social, and physical wellbeing of seniors and the disabled through expansion of mental health services and health-related programs including nutrition, education, physical fitness, disease prevention and rehabilitation.
11. Support legislation that would provide a comprehensive response to disabled and elder abuse, neglect and exploitation.
12. Support legislative and budgetary efforts to address risk factors for chronic diseases and to optimize preparedness to respond to communicable diseases (including public health lab services).
13. (Paragon)Support grants and funding for programs to address homelessness, imminent homelessness, and related issues. Work with cities and other community partners to assess and expand affordable housing for low income populations including seniors and the disabled, including those with mental illness and those recovering from substance abuse. Oppose legislative or budget proposals that place restrictions on or diverts already- allocated funding.
14. Support full state funding and cost-of-living increases for state programs operated by the County.
15. Support legislation, budget or administrative action to fully fund the child support program.
16. Support legislation that provides adequate funding for local child support agencies to ensure a consistent level of service throughout the state.
17. Support legislation that would enable greater efficiency in the child support program.

18. Support expansion and funding of Medi-Cal services to increase reimbursement to providers and to fund dental, vision and other services for older adults. Support additional state and federal funding related to the administration of the Medi-Cal program including a realistic methodology to determine administrative burden to counties.
19. Support legislation and efforts to allow for billing two different services on the same day in a Federally Qualified Health Center (FQHC), and for implementation of prospective payment called alternative payment methodology systems based on a capitation model (per-member, per-month) rather than an encounter-based financing model. Support funding and programs that address issues of shortages within the health care workforce to assure access to quality healthcare.
20. Support legislation and efforts to promote and implement “whole person care” and to address social determinants of health. Support flexibility in the funding of Health and Social Services to assure collaboration between programs and better overall interventions.
21. Advocate for legislation and budget action that would support and enable data integration and sharing between the State, counties, and local government agencies for the purpose of supporting seamless delivery of critical health and safety services to the public.
22. Support adequate realigned funding for realignment programs.
23. Support legislation to recruit and retain health care professionals to serve targeted high-risk populations.
24. Support the provision of resources for respite care for children and adults when needed.
25. Support legislation that develops climate change, health, and equity training curriculum and educational materials for local health department staff and the general public.
26. Support legislation that integrates climate change impacts and actions into public health curricula and programs.
27. Support changes in legislation that facilitate treatment and provision of services to foster youth both in and transitioning out of placement.
28. Support changes in legislation to facilitate sharing of medical and/or treatment records of minors in the child welfare system.
29. Support legislation that federal and state governments must work with counties and provide funding to ensure adequate planning, medical supplies, access to laboratory testing services, workforce and alternative care capacity to appropriately respond to any local, state, or global health emergency.
30. Support legislation and funding for prevention and case management services for maternal, child, and adolescent populations.
31. Support legislation that opposes the establishment of any new state mandates that implement new programs and services without assured funding or by redirecting existing local funds.

Housing, Community & Economic Development, & Workforce Development

Solano County supports state legislative and regulatory actions that promote local housing and community development programs and activities, workforce development programs, and programs aimed at encouraging local job and business growth. The County opposes efforts to cut funding for these critically important programs, as well as efforts to restrict local flexibility in the administration of such programs. Specific principles include:

1. Support Housing Element reform that provides a streamlined certification process and encourage flexibility in Housing Element consistency review by the California Department of Housing and Community Development (HCD), for jurisdictions that have small housing allocation, limited urban services and city centered development policies.
2. Support funding opportunities to assist cities in providing affordable housing for low-income and homeless individuals.
3. Support efforts that establish funding mechanisms such as emergency homeless assistance grants; aid for tenants and landlords; eviction moratoria; and funding for affordable housing which can be instrumental in delivering immediate relief and longer-term recovery.
4. Support funding opportunities and legislation to build upon efforts started in SB 280, Jackson, for: 1) new construction to be built for fall prevention and to meet or exceed safe aging in place design standards; and/or 2) home modifications to allow safe aging in place and senior falls prevention.

5. Encourage and seek legislation to facilitate orderly economic expansion and growth, and increase the opportunity for discretionary revenues, programmatic and financial flexibility for the County.
6. Support the federal/State/local delivery system for workforce development programs with State-level initiatives that complement local delivery efforts and add value for these business-led efforts.
7. Support efforts to increase employment opportunities and link training programs to local available employment, including efforts to increase summer employment opportunities for youth.
8. Support appropriate resources to support safe, accessible and affordable housing to targeted low-income seniors and disabled persons, including permanent and transitional housing and Rental Assistance Programs.
9. Support County's rights to determine land use and zoning regulations to maintain and preserve the agricultural and rural character as supported in the General Plan.
10. Support legislation and policies that create incentives for code and zoning reform funding or programs to provide analysis, technical assistance and incentives for action.
11. Support efforts to create affordable housing for farm workers, consistent with data trends in more permanent farm workers, and consistent with maintaining agriculture as supported in the General Plan.
12. Support Accessory Dwelling Unit (ADU) policies that reduce fees, eliminate discretionary processes, enable conversions of detached buildings and allow ADUs on residential properties that support workforce and lower income populations.
13. Support policies that expand accessibility without creating additional cost barriers to create high quality, flexible living spaces for extended families, combat the housing shortage without inflating rental costs, create opportunities for intergenerational wealth and offer homeowners more freedoms in how they choose to live and invest in their properties.

Public Safety and Emergency Disaster Preparedness and Response

Solano County supports state legislative and regulatory actions that promote funding for key justice, public safety, and emergency preparedness programs. The County opposes efforts to cut funding for such programs, as well as efforts to restrict local flexibility in program administration. Specific principles include:

1. Support continued and protected funding for all 2011 Public Safety Realignment programs.
2. Preserve Title IVE funding and obtain fiscal support from the State to implement the requirements imposed by the California Department of Social Services (CDSS).
3. Support actions to mitigate liabilities of longer-term inmates as a result of realignment in areas such as health, mental health, Americans with Disabilities Act (ADA) and other areas of concern; also efforts to mitigate the impacts of long-term confinement in county jails and redirects inmates with sentences in excess of three years to state prisons.
4. Support legislation that provides funding to comply with the additional financial burden of the Prison Rape Elimination Act.
5. Support maximizing reimbursement for inmate medical care from federal Affordable Care Act (ACA).
6. Protect funding for local public safety programs, including COPS, Juvenile Justice Programs, Cal-MMET, Rural Sheriffs, Booking Fees, Vertical Prosecution, and other critical programs.
7. Support efforts to secure appropriate funding for gang-related issues.
8. Support legislation that establishes a presumptive limit for driving under the influence of marijuana.
9. Support a state offset to recover outstanding restitution ordered to the victims of crimes and other delinquent court ordered fines, penalty assessments, and fees associated with criminal or juvenile justice proceedings; specifically allow the collection term from 3 years to between 10 and 20 years.
10. Support increased funding for prevention, intervention, and victim services for victims of domestic violence, sexual assault, child abuse, dating violence, stalking, elder abuse and human trafficking.
11. Preserve and enhance funding for critical Probation programs for adult and juveniles to include AB 109, SB 678, Juvenile Probation Camps Funding (JPCF), Juvenile Justice Crime Prevention Act (JJCPA), Youthful Offender Block Grant (YOBG), and SB 823.
12. Support legislation and initiatives that protect funds that support Public Safety efforts to include programs and services operated by Probation Departments.
13. Support funding for flood protection of buildings that play a role in local emergency response and to combat

against sea level rise and provide climate resiliency.

14. Support funding for community gardens as part of an emergency preparedness strategy self-sustainment of residents during disasters (especially pertinent due to supply chain challenges experienced during COVID-19).
15. Support efforts to improve safety of hazardous materials transported by rail, including crude by rail and enhance capacity of local emergency responders to appropriately respond to potential emergency events resulting from derailment or releases.
16. Support legislation and administrative actions to expand the availability and affordability of natural disaster coverage including earthquake, wildfire, public health emergency, and flood insurance.
17. Support legislation or budget to provide funding offset of County staff time and supply/resource costs to respond to on-going COVID-19 pandemic.
18. Support legislation and funding to evaluate delivery of fire protection services in unincorporated areas prone to wildfire.

Resource Management, Environmental Health, and Sustainability

Solano County supports state legislative and regulatory actions that promote the environmental health and sustainability of the County, including funding for key programs. The County opposes efforts to cut funding for such programs, as well as efforts to restrict local flexibility in program administration. Specific principles include:

1. Support legislation and administrative action that further the goals of the County's climate resiliency efforts, including the ability for a local agency to obtain greenhouse gas reduction credits and funding for energy conservation/alternative energy projects.
2. Support legislation that provides funding for emerging clean technologies and green infrastructure.
3. Support advancing State and local resiliency plans and projects for effective climate planning and forecasting.
4. Support funding to sustain operations, maintenance and repair of dated infrastructure in County and local park agencies. Support legislative efforts and funding to keep State Parks open in the County and to evaluate the development and long-term implementation of a regional park system.
5. Minimize proposed changes to Building Codes made by the legislative process. Focus code changes on established procedures through the Building Standards Commission.
6. Oppose CalEMA's proposals to require local jurisdictions to purchase repetitive loss properties.
7. Support reinstatement of the Williamson Act program, which was defunded in FY2011/12.
8. Oppose legislation and other ecosystem enhancing actions that diminish the County's ability to require mitigation of the conversion of agricultural lands, including mitigation to enhance existing agricultural lands.
9. Support sensible and meaningful CEQA reform that both streamlines processes and serves to reduce meaningless litigation, while maintaining strong analytic and mitigation requirements for large projects that clearly have significant environmental consequences at a regional or statewide level.
10. Support any legislation and actions that provides responsive, efficient and effective environmental health programs, including those that simplify reporting to state agencies.
11. Support legislation allowing local water agencies to determine how to achieve water conservation mandates and promotes green infrastructure including stormwater capture, groundwater recharge and recycled water use.
12. Support legislation to improve access to healthy foods via community gardens, school gardens, etc.
13. Support legislation that fosters regional purchasing capabilities and inter-jurisdictional infrastructure development to achieve local environmental and sustainability goals/requirements.
14. Support actions for source reduction, recycling and composting, including legislation and grants to support extended producer responsibility and liability for manufactured goods including problematic household waste items like appliances and furniture.
15. Oppose legislation and rule-making that would diminish local authority to regulate cannabis activities.
16. Support legislation and actions that streamlines the permitting of organic waste processing, composting and recycling infrastructure to achieve State mandated recycling mandates, while preserving local requirements that allow such use with reasonable public health and the environmental protections, such as wet weather restrictions, setbacks to residences, and other specific requirements, such as those based on the type of biosolids and location for biosolids land applications, for example.

17. Support legislation and actions that allows collaboration between the groundwater sustainability agencies and the local Environmental Health Departments regarding monitoring and permitting of wells and administrative actions that provide funding for local agencies and property owners to destroy abandoned water wells that pose risks to public safety or water quality impacts.
18. Oppose legislation that undermines the Sustainable Groundwater Management Act (SGMA) process that local agencies are currently following.
19. Support legislation and funding to evaluate and encourage innovation and streamlining/consolidation of rules toward water conservation and reuse, especially treated wastewater, and enhancement of groundwater recharge in unincorporated communities through stormwater capture, water reuse and recycling.
20. Support legislation that promotes regional consolidation of water systems in local communities and secures funding for local community and state small water systems that are at risk of failure due to infrastructure age or that pose health and safety risks to customers.
21. Support legislation, administrative actions and funding for local agencies to modernize light and heavy equipment fleet vehicles, including transition from diesel-fueled vehicles to cleaner-fueled vehicles.
22. Support legislation that allows local programs to establish registration of local waste haulers to prevent illegal dumping and seek funding opportunities to prevent and enforce illegal dumping activities.
23. Support funding to provide for removal of inoperative or abandoned boats and large vehicles, such as motor homes and travel trailers, from private and public property.
24. Support permanent funding and programs to promote stationed public access to conservation lands in the County.
25. Support legislation or administrative actions that place mandatory inspection frequencies for regulated businesses in abeyance during declared emergencies that impact business operations or government staffing.
26. Support legislation that incorporates and encourages climate and health considerations into intersectoral collaborations amongst resource management, environmental and public health, emergency preparedness, and community partners for planning and implementation of resilience and prevention plans.

Transportation

Solano County supports state legislative and regulatory actions that promote and protect the transportation needs of our community. The County opposes efforts to cut funding for key transportation programs, as well as efforts to restrict local flexibility in the administration of such programs. Specific principles include:

1. Support legislation and budget actions which provide additional and continuing funding for local infrastructure, including local roads, bridges, and transit priorities, as well as continued funding of the California Aid to Airports Program (CAAP) for capital projects. Ensure that existing transportation funding streams are retained. Seek to reverse the diversion of Off Highway vehicle funding.
2. Seek funding from the Cap and Trade measure to pay for road maintenance including green roads and other enhancements to the transportation network that reduce greenhouse gas emissions.
3. Seek enhanced funding and regulatory efficiencies for bridges and bridge projects.
4. Support the incorporation of broadband planning and implementation within infrastructure legislation.
5. Oppose legislation that restricts the County's ability to deliver construction projects using specialized consultant, non-profit, or other contract services.
6. Support efforts to improve rail and rail car safety, including positive train control (PTC) technologies, for transportation of hazardous materials including crude oil.
7. Encourage the replenishment of State funding of the Aeronautics Program for Capital Improvement Grant Funding through the California Transportation Commission (CTC); and restore State Aeronautics funding reliability for future project planning.
8. Support funding and increased access to transportation for those who are low income, lack access to reliable transportation or transit dependent, and which stop at grocery stores and to basic quality of life locations.
9. Support legislation that facilitates funding and improvements to the Highway 37 corridor.
10. Support funding that provides the opportunity for continued review and updates to Airport Land Use Compatibility Plans. Support amending the existing list of "Alternative Fuel(s)" to include renewable fuel

sources (e.g. renewable gasoline, renewable diesel, and renewable jet fuel) and add these fuels to the alternative refueling infrastructure strategy.

11. Support funding to study impacts to local airports from proposed habitat conservation or improvement projects located within 5 miles of a public airport or 10 miles from a military airport and that have a potential to increase bird populations that may increase bird strikes.

Veterans and Veterans Affairs

Solano County supports state legislative and regulatory actions that promote and protect the health and general welfare of veterans and active duty servicemembers in our community. The County opposes efforts to cut funding for key veterans' programs, as well as efforts to restrict local flexibility in the administration of such programs. Specific principles include:

1. Support efforts that provide enhanced benefits for veterans and active duty, reserve and National Guard members that are cost-neutral to counties, including expanded mental health services.
2. Support legislative, regulatory or policy changes that would create a federal/state/local government partnership to reduce the VA veteran's claims backlog and expand outreach services to veterans.
3. Support legislation and funding to improve existing and construct new local veteran's facilities.
4. Support state legislation to permit the California Department of Corrections and Rehabilitation (CDCR) to collect data on incarcerated veterans and to give that data to the Department of Veterans Affairs (CDVA) for purposes of connecting those incarcerated veterans and their families with the benefits they are still entitled to while incarcerated, as well as upon release from incarceration.
5. Support legislation that would make it a criminal offense to intentionally misdirect or mislead a veteran, or anyone acting on the veteran's behalf, concerning benefits or entitlements.
6. Support legislation that would establish priority enrollment and registration for veterans in community colleges, state colleges, and universities.
7. Support legislation that would provide state income tax relief to retirement pay of military retirees. Support making permanent the recent increase in funding to California Veteran Service Officers.
8. Support legislation and regulatory changes for active duty military, reservists, veterans, their spouses and immediate family members that supports reciprocity in terms of professional licenses and certificates that would allow them to seek employment in California in professions including, but not limited to the public school system.

Other Agencies Legislative Priorities

1. Delta Counties Coalition - Support the principles developed collectively by the Delta Counties Coalition.
2. Solano LAFCo – Support the 2023 legislative priorities and programs outlined and adopted by Solano LAFCo.
3. Solano First 5 - Support the 2023 legislative priorities and programs outlined and adopted by the Solano First 5 Commission.
4. Solano Transportation Authority – Support the 2023 legislative state priorities and programs as outlined and adopted by the Solano Transportation Authority.
5. Travis Community Consortium – Support the mission of all military organizations located within the County. Support the 2023 state legislative priorities adopted by the Travis Community Consortium. Furthermore, encourage the State to adopt proactive measures regarding the Base Realignment and Closure (BRAC) and convene an office at the State level to work with each community that has a military installation or defense contractors to protect California's interest with the decline in defense spending and the probable realignment of missions and closure of bases.
6. California State Association of Counties (CSAC). Support the 2023 legislative state priorities and programs as outlined and adopted by CSAC.
