

## Rebuttal to Argument in Favor of Measure E – Vacaville USD (246)

VOTE NO on MEASURE E.

As grounds for more debt and higher taxes, the District says schools need safety and technology upgrades because they average “over 45 years old.”

If building age were a logical reason for more debt and higher taxes, the District could recycle that reason every year – because every year school buildings get older.

But age isn't a logical reason. The State Capitol is 150 years old. U.C. Berkeley buildings are over 100 years old. Thanks to proper maintenance and incremental upgrades, these landmarks are perfectly safe and technologically modern.

Safety and technology were the reasons given for the \$101 million Measure V bond and the \$194 million Measure A bond. Both were passed and implemented. After nearly \$300 million, why are Vacaville schools still supposedly unsafe and outdated?

The District says new housing construction necessitates a new school. But developers are required to pay huge impact fees to fund school facilities to serve their developments. Where's that money?

Increasing taxes generally hurts the local economy. It can drive away new businesses and even existing businesses. It can cause property values to decline. And it's especially hard on seniors, the disabled, and low-income families.

Renters and homeowners still owe about \$200 million over the next 20 years from past bonds. The total debt of this new bond is estimated at over \$644 million! Let's pay what we owe before adding \$644 million in new debt and higher taxes!

VOTE NO ON MEASURE E.
