Reasons why project is exempt:

The proposed amendment is exempt under State CEQA Guidelines Section 15061(b)(3) because the proposed project has no potential to cause a significant effect on the environment. The proposed project entails a set of minor amendments to the text of Chapter 28 of the Solano County Code to eliminate ambiguities, correct typographical errors, and promote practicality and internal consistency. The proposed project will not alter prior regulations for intensity or location of development or otherwise compel any physical disturbance to the existing physical environment. In addition, the proposed change to lower the permit requirement for Farm Stands greater than 2,500 square feet from a Use Permit to a Minor Use Permit will not impact the level of environmental review required under CEQA because those permits will remain subject to discretionary review by the hearing authority.
