

NOTES:

1. Obtain all required permits prior to start of work.
2. Provide traffic control in accordance with requirements set forth in the current Manual of Uniform Traffic Control Devices (MUTCD).
3. Open trench or excavation work on all newly paved or surface treated roads shall be prohibited for a period of not less than four years from construction without prior approval of the Resident Engineer (R.E.).
4. Approved trench/excavation work within newly paved or surface treated roads shall be subject to single lane or full width repair work.
5. Two or more potholes or excavations that fall within a 20 foot by 10 foot paved area shall be repaired within a single uniform patch.
6. Provide driveway access at all times.
7. Trenches five feet or more in depth shall comply with the California Division of Industrial Safety Orders.
8. Contractor will be responsible for replacing or repair to trench and pavement for a period of one year from completion of the trench construction.
