

COUNTY OF SOLANO

COMMUNICABLE DISEASE INVESTIGATOR

DEFINITION

Investigates confirmed and/or suspected cases of communicable diseases to ensure patient treatment and follow-up.

CLASS CHARACTERISTICS

This is a journey level class that is characterized by the responsibility to implement one of the County's sexually transmitted and other communicable disease control programs. This position performs communicable disease investigative work, bringing to treatment those patients with positive laboratory tests and providing information on sexually transmitted and other communicable diseases. This class is distinguished from the Communicable Disease Investigator (Supervising) class that is responsible for supervising the work of Communicable Disease Investigators and provides the more difficult and sensitive pre/post test counseling to patients and families.

SUPERVISION RECEIVED AND EXERCISED

Receives direction from the Communicable Disease Investigator (Supervising.)

Exercises no supervision.

EXAMPLES OF DUTIES –*Duties may include but are not limited to the following:*

Interviews clients and contacts; performs HIV Risk Assessment and Disclosure Counseling at alternative test sites in Solano County; performs HIV Orasure Testing; performs Partner Counseling and Referral Service to contacts of HIV; counsels patients diagnosed as having a sexually transmitted disease regarding the disease process (i.e., sequence of symptoms) medication, complications and prevention so that they will be encouraged to be treated and give names, addresses and phone numbers of sexual contacts who have been exposed.

Provides referrals to service providers.

Provides transportation for infected clients and their partners to get appropriate medical care.

Manages cases to closure including successful treatment or failure to comply.

Locates, contacts by phone and/or field visits and informs sexual contacts of program patients of possible exposure to a sexually transmitted or other communicable disease; maintains confidentiality of information.

Reviews information (i.e., epidemiological reports) from other counties and military installations regarding persons exposed to sexually transmitted and other communicable disease who live in Solano County; initiates and provides such information for use by other agencies; consults with medical providers regarding specific clients' diagnosis, treatment plan, infection history and location; consults with Laboratory Microbiologist regarding complex test results.

Attends meetings and in-service training on identification, testing and treatment protocols for sexually transmitted and other communicable diseases; may serve as departmental resource and/or act in behalf of program coordinator in that person's absence in assigned program area.

Maintains professional knowledge in applicable areas and keeps abreast of changes in job-related rules, statutes, laws and new business trends; makes recommendations for the implementation of changes; reads and interprets professional literature; attends training programs, workshops and seminars as appropriate.
