QUALITY ASSESSMENT AND PERFORMANCE IMPROVEMENT PROGRAM OVERVIEW

Solano MHP's Quality Assessment and Performance Improvement program is responsible for providing support services to the Mental Health Plan (MHP) and its administration, programs, providers, consumers and family members, so that all members of the MHP, have an opportunity to develop, implement, coordinate, monitor and evaluate performance activities that throughout an annual period. Solano County's Health and Social Services Department, Behavioral Health Division, Quality Improvement team assists the MHP Director to facilitate the program.

QAPI Program Areas of Focus for FY 2017-2018:

The Quality Assessment and Performance Improvement program will continue support and emphasize performance assessment via quantitative measures in order to identify areas of improvement within the MHP.

Quality Improvement continues to steer the MHP toward using system data to identify needs, and to develop Work Plan goals that help with system improvements that improve access, timeliness, outcomes and quality, and overall patient care. The QAPI plan is also developed with the focus and intention of ensuring that Solano MHP remains in compliance with Federal and California State regulations, most notably FCR Title 42, and CCR Title 9, as well as the parameters stipulated in Solano's MHP contract with California Department of Health Care Services. The following areas have been chosen and targeted by the MHP to include in this year's QAPI Work Plan:

- Cultural Competence
- Wellness and Recovery
- Beneficiary Satisfaction and Protection
- Beneficiary Outcomes and System Utilization
- Service Timeliness and Access
- Program Integrity
- Quality Improvement
- Network Adequacy

The QAPI Work Plan areas of focus are divided into "Active Goals" and "Data Monitoring" sections. Active Goals represent sectors of the system in which data indicated a need for system improvement. Data Monitoring sections include sectors of the system in which the data is not indicating a need for a specific QAPI goal, but that the MHP monitors on a regular basis to ensure the MHP operates with expected parameters.

Quality Improvement team staffing was relatively stable during FY 2017-2018. The QI team members act as liaisons to the MHP to monitor progress being made on QAPI goals on a quarterly basis. Contract Managers and Clinical Supervisors with a specialty role are encouraged to monitor data to look for areas of the system that could benefit from corrective action.

Solano MHP has taken on the practice of treating the Quality Improvement Work Plan as the "treatment plan" for the MHP, and therefore it guides the various Quality Improvement Committee (QIC) subcommittees during their monthly efforts. Progress is tracked on a quarterly basis, and progress and data are reported back to the Quality Improvement Committee once per quarter to inform committee membership and obtain any feedback and recommendations from the committee for consideration to improve current practices.

The committee accomplishes this by utilizing a diverse group of stakeholders, including county and contract providers, Consumer family members, and MH Consumers with lived experience. Committee members also help to improve the system by being involved in other county committees in order to ensure the CC Plan is being implemented.</p> <p>FY 16-17 Baseline:</p> <ul style="list-style-type: none"> • Pending <p>Goal:</p> <ul style="list-style-type: none"> • The Cultural Competence Committee Chair will report on current activities every quarter. 	<p>Q1: The 2017-2018 Cultural Competence Plan Update included the addition of a Cultural Competence Training Plan. This new Training Plan organized the types of culturally responsive trainings available that could benefit staff. The Cultural Competence Committee was reorganized into a new format intended to increase member involvement and commitment. The new format will include the creation of several workgroups that will be responsible for addressing specific goals in the Plan Update.</p> <p>Q2: The Cultural Competence Committee has created three sub-committees; Outreach Sub-committee, Language Assistance Sub-committee, and Mission Sub-committee. The Outreach Sub-committee, comprised of outreach coordinators from across Health and Social Services, has been tasked with creating and implementing strategies focused on reducing barriers to effective outreach efforts and coordinating activities between divisions. The Language Assistance Sub-committee has been formed to specifically address the needs of clients and providers who benefit from language services. The Mission Sub-committee will be responsible for reviewing the Cultural Competence Committee’s mission statement and vision. The work of all three sub-committees is included in the Cultural Competence Plan Update and their ongoing efforts will ensure that behavioral health services are culturally and linguistically appropriate.</p> <p>Q3: The Cultural Competence Committee meets on a quarterly basis and is open to the public. In addition, the various sub-committees meet on a monthly basis but are not open to the public. Those interested in being involved in one of the sub-committees are encouraged to contact Mara Leon, Ethnic Services Coordinator, to be added to the rosters.</p> <p>Q4: The Cultural Competence Plan Update for 2018-2019 is currently being drafted. The goals for the new year include a focus on health literacy and increasing community engagement, client retention, and improving workforce capacity. The Cultural Competence Committee meets on a quarterly basis and is open to the public. The Sub-committees continue to meet on a monthly basis and are by invite only.</p> <p>*The Innovations Project was implemented during 2017. This project involved work with the UC Davis Center for Health Disparities and focused on developing workplans to address cultural competency issues within Behavioral Health. QI Workplan goals related to the Innovations Project will be introduced in the FY 2018/2019 QAPI.</p>
